## ACKNOWLEDGMENTS

The 1958 Puerto Rico Census of Manufactures, was undertaken jointly by the Puerto Rico Planning Board, Government of the Commonwealth of Puerto Rico, and the United States Bureau of the Census. The Industry Division of the Bureau of the Census, represented in Puerto Rico by Angel M. Landrón, Project Director, ~~was~~ responsible for the technical and review functions. Furthermore, several officials of the Commonwealth had major parts in the planning and carrying out of the operations.

Officials of Puerto Rico actively involved in this Census were the following: from Puerto Rico Planning Board, Bureau of Economics and Statistics, Alvin Mayne, Director, who supervised all arrangements in connection with this Census for the Commonwealth of Puerto Rico; Lucila C. Gorbea, Statistician, Office of the Census, who acted as Chief of the Manufactures Section and as technical consultant and supervisor in connection with this Census; Francisco Dones, Machine Tabulation Section, tabulation assistant.

From the Census Bureau staff members, special recognition should be given to the contribution of Maxwell R. Conklin, Chief of the Industry Division; Harold T. Goldstein, Office of the Assistant Director for Statistical Standards, for his work on developing the product class reference list; Louis Greenberg, Business Division, for his review of editing and coding instructions, and Morris Goldman, Industry Division, for his help in editing problems.

## RECONOCIMIENTO

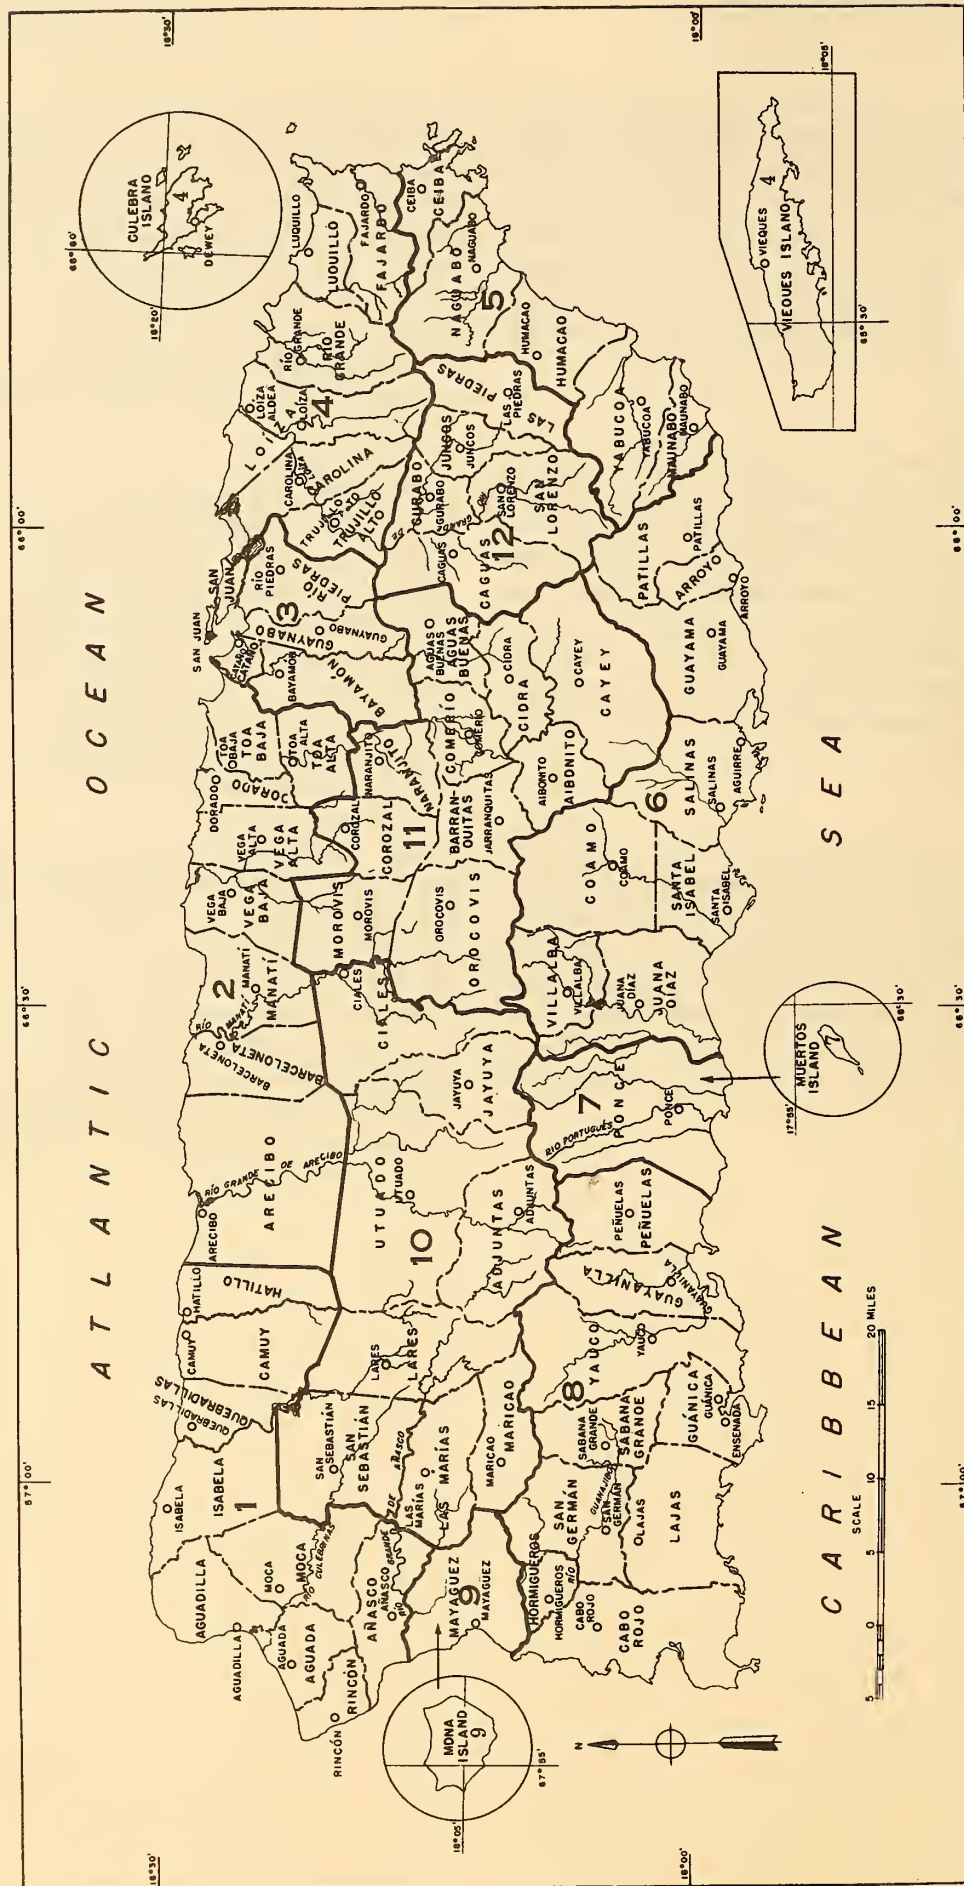

El Censo de Manufacturas de 1958 se llevó a cabo conjuntamente por la Junta de Planificación del Gobierno del Estado Libre Asociado de Puerto Rico y el Negociado del Censo de los Estados Unidos. La División de Industrias del Negociado del Censo, representada en Puerto Rico por el Sr. Angel M. Landrón, Director de Proyecto, fué responsable de las funciones técnicas y de revisión. Además varios funcionarios del Estado Libre Asociado desempeñaron una parte importante al planear y llevar a cabo las operaciones del Censo.

Entre los funcionarios de Puerto Rico que tuvieron una participación activa en este censo están los siguientes: por la Junta de Planificación de Puerto Rico, Negociado de Economía y Estadísticas, Sr. Alvin Mayne, Director, quien supervisó todos los arreglos para el Estado Libre Asociado de Puerto Rico en lo relacionado a este censo; Sra. Lucila C. Gorbea, Estadístico, Oficina del Censo, quien actuó como Jefe de la Sección de Manufacturas y como consultor técnico y supervisor de este censo; Sr. Francisco Dones, Sección de Tabulación Mecánica, asistente de tabulación.

Del personal del Negociado del Censo debe darsele especial reconocimiento a la contribución del Sr. Maxwell R. Conklin, Jefe de la División de Industrias; el Sr. Harold T. Goldstein, de la Oficina del Ayudante del Director de normas Estadísticas, por su trabajo en el desarrollo de la lista de referencia de clases de productos; el Sr. Louis Greenberg, División de Negocios, por sus recomendaciones en relación con las instrucciones para revisar y codificar, y el Sr. Morris Goldman, División de Industrias, por su ayuda en los problemas de revisión.

#### SUMMARY STATISTICS

Table	
1 General statistics for Puerto Rico: 1958 and earlier years..	2
2 General statistics for Puerto Rico, by regions and standard metropolitan statistical areas: 1958 and 1954....	2
3 General statistics for manufacturing establishments, classified by employment size, for Puerto Rico: 1958 and 1954.....	3
4 General statistics for manufacturing establishments, classified by value added by manufacture, for Puerto Rico: 1958 and 1954.....	3
5 General statistics for Puerto Rico, by major industry group: 1958 and 1954.....	4
6 Manufacturing employment and payrolls, by major industry group, for Puerto Rico: 1958.....	5
7 General statistics for Puerto Rico, by form of organization: 1958 and 1954.....	5
8 General statistics for Puerto Rico, by year establishment began operations: 1958.....	6
9 General statistics for Puerto Rico, by tax status of establishment: 1958.....	6

#### INDUSTRY STATISTICS

1 Number of establishments, employment and payroll, and value added by manufacture, for industry groups and industries in Puerto Rico: 1958, 1956, and 1954 (dollar figures in thousands. See introduction for explanation of column captions).....	8
2 Value of shipments and cost of materials, for selected industries in Puerto Rico: 1958 and 1954 (dollar figures in thousands. See introduction for explanation of column captions).....	20
Destination of products sold and source of contract receipts, for selected industries in Puerto Rico: 1958.....	24
4 General statistics for Puerto Rico, by form of organization, for major industry groups: 1958 and 1954.....	26
5 Selected statistics for manufacturing establishments classified by employment size, for industry groups and specified industries in Puerto Rico: 1958.....	28

#### ESTADÍSTICAS GENERALES

Tabla	
1 Estadísticas generales para Puerto Rico: 1958 y años anteriores.....	2
2 Estadísticas generales para Puerto Rico, por regiones y áreas estadísticas metropolitanas: 1958 y 1954.....	2
3 Estadísticas generales para establecimientos manufactureros, clasificados por empleo, para Puerto Rico: 1958 y 1954.....	3
4 Estadísticas generales para establecimientos manufactureros, clasificados por valor agregado por la manufactura, para Puerto Rico: 1958 y 1954.....	3
5 Estadísticas generales para Puerto Rico, por grupo principal de industrias: 1958 y 1954.....	4
6 Empleo en industrias manufactureras, y nóminas, por grupo principal de industrias, para Puerto Rico: 1958....	5
7 Estadísticas generales para Puerto Rico, por clase de organización: 1958 y 1954.....	5
8 Estadísticas generales para Puerto Rico, por año en que el establecimiento empezó sus operaciones: 1958.....	6
9 Estadísticas generales para Puerto Rico, por tipo de impuestos pagados por el establecimiento: 1958.....	6

#### ESTADÍSTICAS INDUSTRIALES

1 Número de establecimientos, empleo y nómina, y valor agregado por la manufactura, por grupos de industrias e industrias en Puerto Rico: 1958, 1956, y 1954 (en miles de dólares. Véase la introducción para la explicación de los encabezamientos de columnas).....	8
2 Valor de las ventas y costo de materiales, para industrias seleccionadas en Puerto Rico: 1958 y 1954 (en miles de dólares. Véase introducción para la explicación de los encabezamientos de columnas).....	20
3 Destino de los productos vendidos y fuentes de ingresos por contratos de trabajo, para industrias seleccionadas en Puerto Rico: 1958.....	24
4 Estadísticas generales para Puerto Rico, por clase de organización, por grupos principales de industrias: 1958 y 1954.....	26
5 Estadísticas seleccionadas para establecimientos manufactureros clasificados por número de empleados, para grupos de industrias e industrias específicas en Puerto Rico: 1958.....	28

Table	Page	Tabla	Página
6 Value of manufacturers' inventories held by establishments with ten employees or more, for industry groups and selected industries in Puerto Rico: end of year, 1958 and 1957.....	31	6 Valor de los inventarios de establecimientos con diez empleados o más, por grupos de industrias e industrias, seleccionadas en Puerto Rico: fin de año, 1958 y 1957....	31
7 Expenditures for plant and equipment by establishments with ten employees or more, for industry groups and selected industries in Puerto Rico: 1958.....	33	7 Gastos de capital por establecimientos con diez empleados o más, por grupos de industrias e industrias seleccionadas, en Puerto Rico: 1958 .....	33

## INTRODUCTION

### 1. Historical Note

The 1958 Puerto Rico Census of Manufactures was undertaken jointly by the Puerto Rico Planning Board, Government of the Commonwealth of Puerto Rico, and the United States Bureau of the Census. The results of this Census of Manufactures are shown in this publication. It represents the eighth canvass of manufacturing activities in the Island during this century. The first Census of Manufactures covered the year 1909 and a census was taken at 10-year intervals thereafter until 1949, except for the year 1929. Legislation in 1950 authorized the taking of censuses of business and manufactures every year or at least every other year. The rapid changes in manufacturing activities in Puerto Rico and the expansion resulting from the industrialization program made it imperative that both the government and manufacturers have up to date information regarding industrial activity in the Island. Therefore, in 1952, a Census of Manufactures with a more limited coverage was conducted by the Government of Puerto Rico. In 1954, a Census of Manufactures was undertaken jointly by the Puerto Rico Planning Board, Government of the Commonwealth of Puerto Rico, and the United States Bureau of the Census. Again, in 1956, another Census of Manufactures was conducted by the Government of the Commonwealth. The 1958 Census of Manufactures was authorized by an Act of the Congress of the United States (13 U. S. C. 131) and by a proclamation of the Governor of the Commonwealth of Puerto Rico (Administrative Bulletin No. 456, signed on December 12, 1958) under the authority granted to him by an Act of the Legislature (Law No. 11 of March 27, 1950). (See Appendix A).

Measures of manufacturing activity by industry and geographic area (value added by manufacture, employment, payrolls, inventories, capital expenditures, etc.) are shown in this publication.

Comparative data for 1956 and 1954 Census of Manufactures for these years are included in Chapter II, Table I.

The Census of Manufactures shows data on summary statistics for manufacturing establishments for census and earlier years, by regions and standard metropolitan statistical areas, by employment size, by value added by manufacture, by major industry group, by form of organization, by year establishment began operations, and by tax status of establishment.

A chapter on Industry Statistics shows broad industrial totals for important individual industries and selected industries on inventories, capital expenditures, the most important classes of products shipped by manufacturing establishments, etc.

A chapter of Area Statistics covers statistics by regions, municipalities, and standard metropolitan statistical areas.

A tax-exempt industries chapter shows statistics for tax-exempt manufacturing establishments.

A chapter on Industry Statistics has been introduced showing the same industrial totals for 1958 as in Chapter II, but now introducing the new Standard Industrial Classification, 1957 edition.

## INTRODUCCION

### 1. Apuntes Históricos

El Censo de Manufacturas de 1958 se llevó a cabo conjuntamente por la Junta de Planificación del Gobierno del Estado Libre Asociado de Puerto Rico y el Negociado del Censo de los Estados Unidos. Los resultados de este Censo se incluyen en esta publicación. El Censo de Manufacturas de 1958 representa la octava encuesta general de las actividades manufactureras en Puerto Rico durante este siglo. El primer Censo de Manufacturas fue en el 1909 y a partir de esa fecha se tomaron censos cada diez años hasta el año 1949, con excepción del año 1929. En 1950 se aprobó legislación autorizando que se tomaran censos de negocios y manufacturas en Puerto Rico todos los años o por lo menos cada dos años. Los cambios rápidos en las actividades manufactureras en Puerto Rico y la expansión resultante del programa de industrialización hicieron imperativo que tanto el Gobierno como el sector industrial privado tuviesen información al día relacionada con la actividad industrial en Puerto Rico. Por consiguiente, en el año 1952, el Gobierno de Puerto Rico llevó a cabo un Censo de Manufacturas de un alcance más limitado. El Censo de Manufacturas de 1954 se llevó a cabo conjuntamente por la Junta de Planificación del Gobierno del Estado Libre Asociado de Puerto Rico y el Negociado del Censo de los Estados Unidos. En 1956 el Gobierno de Puerto Rico volvió a tomar otro Censo de Manufacturas. El Censo de Manufacturas de 1958 fue autorizado por una Ley del Congreso de los Estados Unidos (13 C. E. U. 131) y por una proclama del Gobernador del Estado Libre Asociado de Puerto Rico (Boletín Administrativo Núm. 456, firmado el 12 de diciembre de 1958) bajo la autoridad que le confiere la Ley Núm. 11 del 27 de marzo de 1950. (Véase Apéndice A).

Medidas de la actividad manufacturera por industria y área geográfica (valor agregado por la manufactura, empleo, nóminas, inventarios, inversiones de capital, etc.) se muestran en esta publicación.

Data comparativa para los Censos de Manufacturas de 1956 y 1954 se incluyen en el Capítulo II, Tabla I.

El Censo de Manufacturas muestra data de estadísticas para establecimientos manufactureros para el año censal y años anteriores, por regiones y áreas estadísticas metropolitanas standard, por tamaño de empleo, por valor agregado por la manufactura, por grupo industrial principal, por forma de organización, por año en que el establecimiento comenzó operaciones y si son exentas de contribuciones.

Un capítulo de Estadísticas Industriales presenta totales industriales globales para industrias importantes individuales y para industrias seleccionadas en inventarios, inversiones de capital, los productos más importantes vendidos por los establecimientos manufactureros, etc.

Un capítulo de Estadísticas por Área cubre estadísticas por regiones, municipios y áreas estadísticas metropolitanas standard.

El capítulo de industrias exentas nos muestra estadísticas para los establecimientos manufactureros exentos de contribuciones.

Un capítulo de Estadísticas Industriales se ha introducido con los mismos totales para 1958 que en el Capítulo II, pero esta vez introduciendo la nueva Clasificación Industrial Uniforme, edición 1957.

## 2. Area and Period Covered

The 1958 Census of Manufactures covered manufacturing activity during the calendar year 1958 in the seventy-seven municipalities into which Puerto Rico is divided. Reports were obtained on a calendar-year basis from the great majority of manufacturers in all industry groups. In the relatively small number of cases where individual reports were accepted on a fiscal-year basis, the manufacturer was required to report employment and payroll data on a calendar-year basis. The comparability of production with employment or of value added by manufacture with wages is not appreciably affected by the fact that in some instances the value of shipments was reported for a 12-month period different from the calendar year.

## 3. Coverage

In 1958, the Office of the Census of the Puerto Rico Planning Board prepared a master file of manufacturing establishments on the basis of the 1956 Census of Manufactures. This master file was brought up to date with information obtained from the Commonwealth Department of Labor, the Economic Development Administration, Bureau of Old Age and Survivors Insurance of the Social Security Administration, and other sources. Establishments whose activities did not come within the scope of manufacturing were deleted; also establishments with no paid employees were excluded from the Census. Some establishments had gone out of business prior to 1958; and still others began operation in 1959. The final count of manufacturing establishments covered in the 1958 Census was 2042 of which 687 employed twenty or more persons.

As a result of the above procedures, it is believed that no large manufacturing establishment and no significant aggregate of small establishments were omitted.

## 4. The Canvass and Compilation of Statistics

The 1958 Census report forms were distributed and for the most part, returned by mail. Manufacturers with less than five employees were instructed not to return the completed questionnaires by mail, but to retain them until a census enumerator visited their establishments. A "skip" list was prepared with the names and addresses of manufacturers with five or more employees and the enumerators were instructed not to request a report from them. Establishments in the "skip" list that did not send in a report by mail or whose reports were incomplete or, otherwise, inadequate were reached by telephone or personal visit from the Office of the Census, Manufactures and Business Sections.

The forms were mailed during early February of 1959. Reports were due within thirty days of receipt by the establishment. By the end of June, over 74 per cent of them had been received; but some few reports were not received until late October.

## 2. Area y Período Cubiertos

El Censo de Manufacturas de 1958 cubrió las actividades manufactureras efectuadas durante el 1958 en los 77 municipios en que está dividido Puerto Rico. La mayoría de los fabricantes rindieron la información a base del año calendario, que era como se pedía preferentemente. Hubo un número relativamente pequeño de casos en que se les permitió a los industriales que rindieran la información a base de año fiscal, sin embargo, aun así se les pidió que los datos sobre empleo y nóminas de pago estuvieran basados en el año calendario. La comparabilidad entre la producción y mano de obra, o entre el valor agregado por la manufactura y los salarios, no se afectó sustancialmente por el hecho de que en algunos casos el valor de los ingresos informado correspondiera a un período de doce meses diferente del año natural.

## 3. Obtención de un Censo Completo

En 1958, la Oficina del Censo de la Junta de Planificación de Puerto Rico preparó una lista de control de los establecimientos manufactureros basada en el Censo de Manufacturas de 1956 y la puso al día con información obtenida del Departamento del Trabajo de Puerto Rico, la Administración de Fomento Económico, la Oficina de Seguro Social Federal y otras fuentes. Fue preciso omitir algunos establecimientos incluidos en la lista original, ya que de acuerdo con sus actividades no caían dentro de la clasificación de manufactura; y también se excluyeron los que no tenían empleados con paga. Algunos establecimientos incluidos en estas listas habían cesado de operar antes de 1958 y otros empezaron sus operaciones en 1959. El recuento final de establecimientos manufactureros cubiertos por el Censo de 1958 fue de 2042, de los cuales 687 tenían veinte empleados o más.

Como resultado de los procedimientos mencionados, se estima que no se ha excluido ningún establecimiento manufacturero de los mayores, ni un número significativo de los pequeños.

## 4. Recolección y Compilación de las Estadísticas

Los cuestionarios para el censo de 1958 fueron distribuidos y en su mayor parte devueltos por correo. A los fabricantes con menos de cinco empleados se les instruyó que no devolvieran por correo los cuestionarios ya completados, sino que los retuvieran hasta que el enumerador del censo visitase sus establecimientos. Se preparó una Lista de Omisiones con los nombres y direcciones de los fabricantes con cinco o más empleados y se instruyó a los enumeradores para no recogerlos. Los establecimientos en dicha Lista de Omisiones que no enviaron su informe por correo o aquellos cuyos informes estaban incompletos o defectuosos fueron entrevistados por teléfono o visitados personalmente por un empleado de la Oficina del Censo, Sección de Manufacturas y Negocios.

Los cuestionarios se enviaron por correo a los industriales durante la primera parte del mes de febrero de 1959. Se pidió a los industriales que devolvieran el informe censal debidamente cumplimentado a la Oficina del Censo dentro de

In a very few instances where the establishment ceased operations during or after 1958 and the owner could not be located or where a report was unobtainable for other reasons, partly estimated data were used. In these cases, as much pertinent data as possible were obtained from other agencies of the Puerto Rican Government and the remaining data were estimated on the basis of industry averages. However, these estimates represented not more than 15 per cent of the establishments.

The mailing, collection, follow-up, editing, and coding of the reports were carried out in the Office of the Census of the Bureau of Economics and Statistics, Puerto Rico Planning Board. Information from schedules was transferred to coding sheets in the same Office. The punching and tabulation of cards were performed by the Tabulation Section of the Bureau of Economics and Statistics of the Puerto Rico Planning Board. The preparation of tables and text in this publication were performed in the Office of the Census.

#### 5. Types of Establishments Covered in the Census

The 1958 Census of Manufactures covers all establishments primarily engaged in manufacturing as defined in the Standard Industrial Classification Manual, Volume I, "Manufacturing Industries," 1945 edition, as amended by the U. S. Bureau of the Budget and the new Standard Industrial Classification Manual, 1957 edition.

The Standard Industrial Classification Manual describes manufacturing establishments as those engaged in the mechanical or chemical transformation of inorganic or organic substances into new products. These activities are usually carried on in plants, factories, or mills.

Manufacturing production is usually carried on for the wholesale market, for interplant transfer within the company, or to order of industrial users, rather than for direct sale to the household consumer. Some manufacturers in a few industries, however, sell chiefly at retail to domestic consumers through the mail, through house-to-house routes, or through salesmen.

The following types of processing activities, which may be regarded by some as manufacturing, are in fact defined as nonmanufacturing by the Standard Industrial Classification and are, therefore, excluded from the Census of Manufactures:

los treinta días siguientes al recibo del mismo en el establecimiento. Hacia fines de junio, se habían recibido más de un 74 por ciento de los cuestionarios, pero varios informes censales no se recibieron hasta tarde en el mes de octubre.

En aquellos pocos casos en que el establecimiento dejó de operar durante 1958 o después, y no fue posible localizar al dueño o cuando no se pudo obtener información por otras razones, se usaron datos estimados. En estos casos, la mayor cantidad posible de datos se obtuvo de otras agencias del Gobierno de Puerto Rico y los restantes fueron estimados a base de promedios calculados para la industria en cuestión. No obstante, estos cálculos se hicieron en no más de un 15 por ciento de los establecimientos.

El envío por correo, la recolección, así como las entrevistas complementarias y la revisión y codificación de los cuestionarios se llevó a cabo en la Oficina del Censo del Negociado de Economía y Estadísticas, Junta de Planificación de Puerto Rico. La información contenida en las planillas fue transferida a hojas de codificación en la misma Oficina. La perforación de tarjetas y la tabulación fue realizada por la Sección de Tabulación Mecánica del Negociado de Economía y Estadísticas de la Junta de Planificación. La preparación de tablas y el texto que aparece en esta publicación fueron realizados en la Oficina del Censo.

#### 5. Clases de Establecimientos Cubiertos en este Censo

El Censo de Manufacturas de 1958 cubre todos aquellos establecimientos que se dedican principalmente a la manufactura, tal como se describe en el Manual de Clasificación Industrial Uniforme, Volumen 1 "Industrias Manufactureras," edición de 1945, enmendada por el Negociado del Presupuesto de los Estados Unidos y el nuevo Manual de Clasificación Industrial Uniforme, edición de 1957.

En este manual se describe a los establecimientos manufactureros como establecimientos dedicados a la transformación mecánica o química de materias orgánicas o inorgánicas convirtiéndolas en productos nuevos. Estas actividades por lo general se efectúan en plantas, fábricas, o molinos.

La producción manufacturera generalmente se destina al comercio mayorista, para el intercambio con otras fábricas dentro de una misma compañía, o para llenar los pedidos de otros industriales, más bien que a la venta directa a los consumidores finales. Hay, sin embargo, unas pocas industrias que venden mayormente al detal a consumidores finales, a través del correo, de casa en casa, o utilizando vendedores.

Las siguientes clases de actividades de elaboración, que a veces se consideran como manufactureras, se definen por cierto como no-manufactureras por la Clasificación Industrial Uniforme y son por esto excluidas del Censo de Manufacturas:

a. Processing on farms if the raw materials are grown on the farms and if the manufacturing activities are on a small scale without extensive use of paid labor. Also custom milling and similar activities. In the tobacco stemming and redrying industry in Puerto Rico, it is a practice of the larger companies to allow the individual growers to process their own tobacco in the companies' warehouses. During the processing of a particular grower's crop, the wages of the warehouse laborers involved are paid by the grower and the product remains the property of the grower. Such value of products and employment are excluded from the Census of Manufactures.

b. Manufacturing activities of certain establishments which sell most of their products at retail on the premises, for example, single-shop retail bakeries.

c. Fabricating operations performed at the site of construction by contractors.

d. Production by public utilities.

e. Custom work to the individual order of domestic consumers, such as custom tailoring or woodworking.

f. Repair and other service activities (except services performed "for the trade").

g. Educational, eleemosynary, and penal institutions engaged in some manufacturing.

The following types of activities, though not universally considered to be manufacturing, are so classified in the Standard Industrial Classification and are, therefore, included in the Census of Manufactures:

- a. Bakeries (except single-shop retail bakeries)
- b. Printing and publishing
- c. Apparel jobbing
- d. Electroplating, plating, and metal polishing
- e. Job stamping, casting, and machining
- f. Lapidary work

In some instances, an establishment which was engaged in a combination of both manufacturing and nonmanufacturing activities at the same location was excluded from the Census of Manufactures; if the nonmanufacturing activity predominated. For example, an establishment of a multiunit firm may be en-

a. Elaboración de productos en la finca, si la materia prima es producida en la misma finca y las actividades manufactureras son en pequeña escala y sin hacer uso extenso de mano de obra pagada; también la molienda de granos a la orden y otras actividades similares. En la industria de despalillado y resaca de tabaco en Puerto Rico, se sigue la práctica de permitir a los productores individuales el elaborar su propio tabaco en los almacenes de las grandes compañías tabacaleras. Durante la elaboración del producto de un agricultor particular, los salarios de los obreros ocupados en la operación son pagados por el propio agricultor, y mientras tanto el producto sigue siendo de su propiedad. El valor de dichos productos y empleo se excluyen del Censo de Manufacturas.

b. Actividades manufactureras de ciertos establecimientos que venden la mayoría de sus productos a consumidores finales y en el mismo local; por ejemplo, panaderías o reposterías que consisten de una sola unidad.

c. Actividades manufactureras efectuadas por contratistas en el mismo lugar de las obras.

d. Producción por las compañías de servicio público.

e. Trabajos hechos por encargo a petición de consumidores domésticos, tales como labores de sastrería, costura o trabajos en madera.

f. Reparaciones y otros servicios (excepto servicios efectuados "para el negocio").

g. Instituciones de enseñanza, de beneficencia y penales que llevan a cabo algunas actividades manufactureras.

Las siguientes clases de actividades, aunque no consideradas universalmente como manufactureras, son consideradas como tales en la Clasificación Industrial Uniforme, y por consiguiente, se incluyen en el Censo de Manufacturas:

- a. Panaderías (excepto aquellas que son más bien tiendas al detal)
- b. Industrias de artes gráficas y relacionadas (impresos y publicaciones)
- c. Contratistas de ropa hecha
- d. Enchape y pulido de metales
- e. Estampado, fundición y corte de metales
- f. Trabajo lapidario

En los casos en que el establecimiento se dedicaba tanto a actividades manufactureras como no manufactureras, en un mismo local, se excluía del Censo de Manufacturas si la actividad no manufacturera predominaba. Por ejemplo, un establecimiento perteneciente a una firma que opera varias uni-

gaged in an appreciable amount of nonmanufacturing activity, such as repair or resale of merchandise not manufactured in the establishment. A given value of receipts from repair services reflects a somewhat greater labor and capital input than the same value of receipts from shipments of manufactured products; in turn, the same value of manufactured products requires more labor and capital input than the purchase and resale of merchandise. Consequently, weighting factors of "4" for repair receipts, "3" for manufacturing receipts, and "1" for resales were applied to each multiactivity establishment and the largest "adjusted" value determined its classification.

## 6. Comparison of Census Data with Other Figures

Despite the application of fairly uniform definitions on manufacturing activity, the census figures may differ in some cases from those published by other Governmental agencies, such as the U. S. Department of Labor and the Puerto Rico Department of Labor. These differences reflect in a large part the greater emphasis in the Census on securing separate reports for each establishment of companies with more than one plant. This permitted more precise geographic classification and the exclusion of nonmanufacturing activities of these companies at location other than the manufacturing plant.

## 7. Comparability with Earlier Censuses

General statistics are shown wherever possible in this report for 1956 and 1954, as well as for 1958. In 1954, 1956, and 1958 establishments primarily engaged in the pasteurization and bottling of fluid milk were classified in manufacturing rather than in trade industries. In 1958, establishments primarily engaged in manufacturing ready-mixed concrete were also classified in manufacturing. The 1958 data for all other industries are comparable with both the 1954 and the 1956 results.

In the 1954, 1956, and 1958 Censuses, homeworkers' wages were included in payroll, not in contract costs as in previous censuses, and thus were reflected in value added by manufacture.

In 1954 and previous censuses, value added by manufacture was calculated by subtracting the cost of materials, supplies and containers, fuel, purchased electric energy, and contract work from the total value of shipments. In 1956 and 1958, an attempt was made to measure that part of value added that went to form part of the products that were finished but not sold or that were in process at the end of the year. Therefore, changes in inventories of finished products and work in process were added to value of shipments to obtain the value of production during the year. The sales of products bought and

dades puede estar dedicada principalmente a actividades no-manufactureras, tales como trabajos de reparación o reventa de mercaderías no manufacturadas en el establecimiento. Un valor dado de los ingresos por servicios de reparación refleja una inversión algo mayor correspondiente a la mano de obra y capital utilizados que el mismo valor de ingresos obtenidos por la venta de productos manufacturados; a su vez, el mismo valor correspondiente a artículos manufacturados requiere una mayor aportación de mano de obra y capital, que la compra-venta de mercadería. Por tanto, los ingresos de cada establecimiento con actividades múltiples se ajustaron aplicando los factores de ponderación siguientes: de "4" por ingresos de reparación; de "3" por ingresos de la manufactura; de "1" por reventas, y el mayor valor de ingresos "ajustada" determinó su clasificación.

## 6. Comparabilidad de los Datos Censales Sobre Establecimientos Manufactureras con Otras Cifras

A pesar de usarse definiciones relativamente uniformes de las distintas actividades manufactureras, puede que las cifras del censo difieran algo de las cifras publicadas por otras entidades gubernamentales tales como el Departamento del Trabajo de los Estados Unidos y el Departamento del Trabajo de Puerto Rico. Estas diferencias provienen en gran parte del empeño del censo en obtener información separada para cada establecimiento cuando las campañas tienen más de una planta. Esta permite una clasificación más exacta por área geográfica y la exclusión de las actividades no manufactureras de dichas campañas en locales distintas a los de la planta manufacturera.

## 7. Comparabilidad con Censos Anteriores

En este informe se presentan, siempre que es posible, estadísticas generales para el 1956 y 1954, así como para el 1958. En 1954, 1956 y 1958 las establecimientos que se dedicaron mayormente a pasteurizar y embotellar leche fueron clasificadas en la manufactura en vez de en el comercio. En 1958 se consideraron los establecimientos dedicados a premezclar hormigón como manufactura en vez de comercio. Los datos de 1958 para todas las demás industrias son comparables con los resultados obtenidos en 1956 y 1954.

En los censos de 1954, 1956 y 1958, los jornales de los trabajadores a domicilio se incluyeron en la nómina y no en el costo por contrato, como en años anteriores. De este modo, quedaron reflejados en el valor agregado por la manufactura.

En el 1954 y censos anteriores, el valor agregado por la manufactura se obtuvo restando el costo de materiales, piezas, envases, combustibles, energía eléctrica y trabajo por contrato del valor total de las ventas. En el 1956 y 1958 se hizo un esfuerzo por medir, además, el valor agregado que pasó a ser parte de los productos que se manufacturaron pero que no se vendieron o que estaban en proceso al finalizar el año. Por lo tanto, los cambios en inventarios de productos terminados y de artículos en proceso fueron añadidos al valor de las ven-

resold in the same condition were also added to the value of shipments. The costs of materials parts and supplies consumed, products bought and resold in the same condition, fuels, electric energy, and contract work were later subtracted from this total to obtain value added by manufacture. A comparable value added figure was prepared for 1954.

## 8. Industry Classification

An industry consists of a group of establishments primarily engaged in the same line or similar lines of economic activity. In the manufacturing field, the line of activity is generally defined in terms of the products made or the processes of manufacture used. The manufacturing industry classifications used in the first four chapters of this Census were derived from those which appear in the 1945 Standard Industrial Classification Manual, as amended by the Bureau of the Budget. (For Spanish titles of these industry classifications, see Appendix C.) A new Chapter (V) is being presented to introduce the new 1957 Standard Industrial Classification.

A manufacturing establishment is assigned to or classified in an industry generally on the basis of its principal products made or services performed. The products made by each establishment are grouped according to the industries in which they are usually made. The group of products accounting for the principal portion of the total value of products sold by the establishment determines its industry classification. These products are said to be the "primary" products of the establishment, as well as of the industry in which they are usually made; all other products made by the establishment are referred to as "secondary" products. While some establishments produce only the primary products of the industry in which they are classified, this rarely is true of all of the establishments in an industry. The general statistics (employment, payroll, value added by manufacture, etc.) shown for an industry, therefore, reflect not only the primary activities of the establishments in that industry, but also their activities in the manufacture of secondary products, and their receipts for their other activities, (such as, receipts for repairs or installation of the product manufactured, sales of scrap, and contract work on materials owned by others).

In a classification system dividing the manufacturing field into hundreds of separate industries to which establishments are assigned on the basis of their principal activity, production by one industry may overlap into the products of other industries. Such overlapping is particularly prevalent in such industry groups as apparel, furniture, and metal fabricating, where establishments within each group, employing the same basic types of machinery and fabricating operations, produce a wide variety of products belonging to a number of

tas para obtener el valor total de la producción durante el año. Las ventas de los productos comprados y vendidos en las mismas condiciones fueron también añadidas al valor de las ventas. De este total, se restó luego el costo de los materiales, piezas, envases, productos comprados y vendidos en la misma forma en que se compraron, combustibles, energía eléctrica y trabajo por contrato, para obtener el valor agregado por la manufactura. Una cifra comparable de valor agregado fue preparada para el 1954; sin embargo, ese ajuste no fue posible para años anteriores.

## 8. Clasificación de Industrias

Una industria consiste de un grupo de establecimientos dedicados principalmente a un mismo campo o líneas similares de actividad económica. En el campo manufacturero, la línea de actividad se clasifica, por lo general, atendiendo al artículo manufacturado o al proceso manufacturero usado. Las clasificaciones industriales usadas en las cuatro primeros capítulos de esta publicación se tomaron del Manual de Clasificación Uniforme de 1945, enmendado por el Negociado de Presupuesto de las Estados Unidos. (Para los títulos de industrias usados para este censo véase el Apéndice C). El Capítulo V de esta publicación presenta la nueva Clasificación Industrial Uniforme de 1957.

Un establecimiento manufacturero se clasifica dentro de un grupo industrial determinado por lo general de acuerdo con su producción principal o con los servicios prestados. Los artículos manufacturados por cada establecimiento se agrupan según la industria en que comúnmente se fabrican. El grupo de productos que constituye la parte principal del valor total de los productos vendidos por el establecimiento determina su clasificación industrial. Estos productos son los "productos primarios" del establecimiento, así como también de la industria en que por lo general se hacen; todos los demás productos manufacturados por el establecimiento se conocen como "productos secundarios." Aunque algunos establecimientos sólo se dedican a la manufactura de aquellos productos primarios que le dan nombre, raras veces sucede esto con todos los establecimientos clasificados dentro de una industria. Así pues, las estadísticas generales (número de empleados, nómina de pago, valor agregado por la manufactura, etc.) para una industria, reflejan no sólo las actividades primarias de los establecimientos en dicha industria, sino también sus actividades en relación con la manufactura de los productos secundarios y los ingresos correspondientes a otras actividades (tales como reparaciones o instalación del producto terminado, venta de chatarra y trabajos por contrato hechos con materiales propiedad de otros).

Dentro del sistema de clasificación usado para dividir el campo de manufactura en cientos de industrias distintas, a las cuales se adscriben los diferentes establecimientos de acuerdo con su actividad principal, puede que también la industria se extienda abarcando en parte la producción de otras industrias. Esto ocurre particularmente en grupos de industrias tales como el de manufactura de ropa, de muebles, y de artículos de metal, en que los establecimientos dentro de cada grupo que emplean los mismos tipos básicos de maquinaria y procesos

different industries. Of course, the greater the degree of overlapping, the less meaningful are the relationships between general and product statistics for the particular industry.

The tables showing "value of products sold" (Chapter II, table 3 and Chapter IV, table 3) present information classified on the basis of the products manufactured, regardless of the industry classification of the plant that manufactured them.

## 9. Groups of Industries

The Standard Industrial Classification System, used in this Census, combines the hundreds of individual industries into a smaller number of industry subgroups; which are, in turn, combined into 20 major industry groups. Each individual industry is designated by a 4-digit code, each industry group by a 3-digit code identical with the first three digits of its component industries, and each major industry group by a 2-digit code identical with the first two digits of its component industry groups.

In the summary industry tables, subtotals for industry subgroups and major groups are shown where possible, and codes for each industry level are shown at the left of the industry name. Where a three-digit industry subgroup comprises only four-digit industry, only the four-digit industry name and code are shown. In order to save space in these tables, shorter titles have been substituted for many of the titles shown in the Standard Industrial Classification Manual.

## 10. Definition of Value Added by Manufacture

The value added by manufacture is determined by adding changes in finished products and work-in-process inventories to total value of shipments (including the sales of products bought and resold in the same condition) and subtracting from this total the cost of materials, supplies, containers, products bought and resold in the same condition, fuel and electric energy consumed during the year, and contract work. This difference approximately represents the net contribution of the manufacturing process to the Puerto Rican economy. It shows the relative importance of the different industries studied. The value added by manufacture eliminates duplications present in cost of materials or value of shipments due to the use of final products of same industries as raw material by others.

## 11. Geographic Distribution

Census of Manufactures statistics have been tabulated

de fabricación, producen una gran variedad de artículos que pertenecen a otras industrias. Naturalmente, cuanto mayor sea el grado en que una industria se extienda para abarcar la producción de otras industrias, menos significativa resulta ser la relación entre las estadísticas generales y las de cada producto para esa industria en particular.

Las tablas que muestran el "valor de las productos vendidas" (Capítulo V, tabla 2 y Capítulo IV, tabla 3) presentan información clasificada a base de los productos manufacturados, sin considerar cuál es la clasificación industrial de la fábrica que los hizo.

## 9. Grupos de Industrias

El sistema de Clasificación Industrial Uniforme, utilizado en este censo, combina cientos de industrias manufactureras individuales para formar un número menor de subgrupos industriales que a su vez son combinados para formar veinte grupos principales de industrias. Cada industria individual se designa con un número clave de cuatro cifras, cada grupo de industria con un número clave de tres cifras que son idénticas a las tres primeras cifras de las respectivas industrias que la componen, y cada grupo principal de industrias con un número clave de dos cifras que son iguales a las dos primeras cifras de las grupos de industrias que lo componen.

En las tablas de resúmenes por industria, se presentan cuando es posible subtotales para las subgrupos y grupos principales de industrias y la clave industrial se muestra a la izquierda del nombre de la industria. Cuando un subgrupo de industrias con un número clave de tres cifras incluye sólo una industria con un número clave de cuatro cifras, se presenta únicamente el nombre y el número clave de la industria de cuatro dígitos. Para ganar espacio en estas tablas, muchos de los títulos que aparecen en el Manual de Clasificación Industrial Uniforme han sido acortados.

## 10. Definición de Valor Agregado por la Manufactura

El valor agregado por la manufactura se obtiene sumando los cambios en inventarios de productos terminados y artículos en proceso al valor total de las ventas (incluyendo la venta de productos comprados y vendidos en las mismas condiciones) y restando del total así obtenido, el costo de los materiales, piezas, envases, productos comprados y vendidos en la misma forma que se compraron, combustibles, energía eléctrica consumida durante el año más el costo de labor por contrato. Esta diferencia representa, aproximadamente, la contribución neta del proceso manufacturero a la economía de Puerto Rico y muestra la importancia relativa de las diferentes industrias cubiertas. El valor agregado por la manufactura elimina duplicaciones presentes en las listas de materiales a valor de las ventas que surgen como resultado del uso del producto final de una industria como materia prima por otras industrias.

## 11. Distribución Geográfica

Los resultados del Censo de Manufacturas se tabularon

for regions and standard metropolitan statistical areas, as well as for the legally constituted units (municipalities) into which Puerto Rico is divided.

The regions, as delineated by the Puerto Rico Planning Board, are groupings of adjoining municipalities which are relatively homogeneous with respect to terrain and social and economic characteristics. Data are published for regions in this report in order to provide summary figures at levels intermediate between those for Puerto Rico as a whole and those for an individual municipality.

A standard metropolitan statistical area is an integrated economic and social entity with an attendant large volume of daily travel and communication between the central city and the outlying parts of the area. Each standard metropolitan statistical area is designated by the name of the principal municipality in the area. The three standard metropolitan statistical areas and their constituent parts are as follows:

- a. Mayaguez--Mayaguez Municipality
- b. Ponce--Ponce Municipality
- c. San Juan--Bayamon, Cataño, Guaynabo, Rio Piedras, and San Juan Municipalities

## 12. Confidentiality of Data

The Government of Puerto Rico and the U. S. Bureau of the Census are prohibited by law from publishing any statistics that disclose information reported by individual companies. As in recent censuses, this has been interpreted as follows:

- a. The number of establishments, even down to one, may be presented in terms of locality, industry classification, and approximate size.
- b. Employment figures may be shown for any industry or locality represented by three or more companies.
- c. Value figures may be shown for any industry, locality, or product represented by three or more companies; provided also that one or two companies do not produce a very large proportion of the combined output of these companies.
- d. Care is taken to provide against the possibility of disclosure by subtraction. If, for example, the statistics for a municipality were subtracted from those for the region in which it is located, and this subtraction would isolate a group of establishments not meeting the rules indicated in (b) and (c), data for the municipality would be withheld.

In this Census, preference in geographical statistics was given first to regions, second to standard metropolitan statis-

por regiones y por áreas metropolitanas estadísticas standard, así como también por los unidades políticas legalmente constituidas (municipios) en que está dividido Puerto Rico.

Las regiones, según han sido delineados por lo Junta de Planificación de Puerto Rico, son agrupaciones de municipios contiguos que son relativamente homogéneos con respecto al terreno y características tanto sociales como económicas. En este informe se han publicado datos por regiones para así proveer cifras resúmenes o niveles intermedios entre aquellos para Puerto Rico como un todo y aquellos para un municipio en particular.

Un área metropolitana estadística standard es una entidad social y económicamente integrada con un gran volumen de tránsito e intercomunicación diaria entre la ciudad central y las zonas y pueblos limítrofes. Cada área metropolitana estadística standard se designa por el nombre del municipio principal incluido en el área. Los tres áreas metropolitanas estadísticas standard y sus partes componentes son las siguientes:

- a. Mayaguez--Municipio de Mayaguez
- b. Ponce--Municipio de Ponce
- c. San Juan--Municipios de Bayamón, Cataño, Guaynabo, Río Piedras y San Juan

## 12. Divulgación de Datos sobre Compañías Individuales

Tanto al Gobierno de Puerto Rico como al Negociado del Censo de los Estados Unidos les está prohibido por ley publicar datos que revelen la información rendido por compañías individuales. Al igual que en censos recientes, esto se interpretó como sigue:

- a. Es permisible publicar datos individuales para un establecimiento con respecto a su localización, clasificación industrial o tamaño aproximado.
- b. Se pueden publicar cifras sobre empleo para cualquier industria o localidad que esté representado por tres o más compañías.
- c. Se pueden publicar cifras sobre valor de la producción para cualquier industria, localidad o producto representado por tres o más compañías; siempre y cuando una o dos de dichas compañías no produzcan una proporción bastante grande de la producción conjunta de estas compañías.
- d. Se ha tenido cuidado de evitar la posibilidad de descubrir datos mediante operaciones de resta. Es decir, si por ejemplo los cifras correspondientes a un municipio se restan del total para la región en que está localizado y esta resta facilitara el aislar un grupo de establecimientos, faltando de este modo a los reglamentos (b) y (c) antes mencionados, los datos para este municipio serían entonces omitidos al hacer la publicación.

En las estadísticas por áreas geográficas de este censo,

tical areas, and third to individual municipalities. Similarly, in presenting industry statistics preference was given to industry groups over individual industries.

### 13. The Census Report Form

Two Census report forms were used for all establishments covered in this Census: Form PR-MC-100, for establishments with five or more employees; and Form PR-MC-101, for those with less than five employees. Separate printings of Form PR-MC-100 were made in English and in Spanish. Printings of Form PR-MC-101 was made in Spanish. Establishments with five or more employees were requested to furnish data on manhours, inventories, and capital expenditures, in addition to data on employment, payrolls, materials, products, etc. (In actual practice, however, the additional data were obtained on a complete basis only from establishments with ten or more employees).

Copies of the Census report forms and instructions are printed in Appendix B.

The forms required that each respondent enter the actual physical location of the manufacturing establishment, Federal Social Security Employer Identification Number, company affiliation, and changes in ownership during 1958. These identification data were used primarily for control purposes or additional knowledge in processing the reported figures. To develop a historical time series showing when establishments covered in the 1958 Census came into existence, each respondent was asked to report the year in which his plant first began operations. A "form of ownership" question was also included to determine the distribution of establishments by type of ownership (proprietorships, partnerships, corporations, etc.) in the various industry groups.

### 14. Explanation of Terms

**Establishment.**--In the Census of Manufactures, data are collected from individual manufacturing establishments, that is, those engaged in the mechanical or chemical transformation of inorganic or organic substances into new products. These activities are usually carried on in plants, factories, or mills. The term "establishment" denotes a single plant or factory in which manufacturing operations are performed. The term is not necessarily identical with the business firm or company, which may consist of one or more establishments. A company that operated establishments in more than one location was generally required to submit a separate report for each location. Also, companies engaged in distinctly different lines of activity at one location were required to submit separate reports, if separate records were available or if substantially accurate reports could be prepared.

Where an establishment changed ownership during the year 1958, it was counted as a single establishment, provided

se dio preferencia primero, a regiones, segundo a áreas metropolitanas estadísticas standard, y tercero a los municipios. De igual manera, al presentar las estadísticas sobre industrias se dio preferencia a los grupos de industrias dejando en segundo lugar a las industrias individuales.

### 13. El Cuestionario Censal

Se usaron dos tipos de cuestionarios para los establecimientos cubiertos por este censo: Cuestionario PR-MC-100, para los establecimientos con cinco o más empleados y el cuestionario PR-MC-101, para los establecimientos con menos de cinco empleados. Los cuestionarios PR-MC-100 se imprimieron en español y en inglés. La impresión del cuestionario PR-MC-101 se hizo en español solamente. A los establecimientos con cinco o más empleados se les pidió información respecto a las horas-hombre, inventarios, e inversiones de capital, además de los datos sobre empleo, nómina, materiales, productos, etc. (Sin embargo, en la práctica, la información adicional completa sólo se obtuvo de establecimientos con diez o más empleados).

En el Apéndice B se presentan modelos de los cuestionarios censales y sus instrucciones.

En los cuestionarios se pidió a cada informante que anotara la localización física del establecimiento manufacturero, número de patrono de Seguro Social Federal, la afiliación de la compañía y los cambios de estado o posesión del establecimiento durante el 1958. Estos datos de identificación se usaron principalmente para propósitos de control o como información adicional al procesar las cifras informadas. Para obtener una serie cronológica que mostrara la fecha en que los establecimientos cubiertos por el censo de 1958 se establecieron, se pidió a cada dueño informase el año en que su negocio comenzó a operar por primera vez. También se incluyó una pregunta sobre la "organización legal" (tipo de dominio) para poder determinar la distribución de los establecimientos por clase de dueño (propietario individual, sociedad, corporación, etc.) en los distintos grupos de industrias.

### 14. Explicación de los Términos Usados

**Establecimiento.**--En el Censo de Manufacturas se recolectaron datos sobre establecimientos manufactureros individuales, es decir, aquellos que se dedican a la transformación mecánica o química de materias orgánicas o inorgánicas convirtiéndolas en nuevos productos. Estas actividades por lo general son llevadas a cabo en fábricas o molinos. El término "establecimiento" denota una sola fábrica o factoría en la cual se llevan a cabo operaciones manufactureras. Este término no es necesariamente idéntico al de empresa o compañía, que puede consistir de uno o más establecimientos. A aquellas compañías que operaban en más de un local se les pidió que rindieran un informe por separado para cada local. Igualmente, a las compañías que se dedicaban a líneas enteramente distintas de actividad en un mismo local se les pidió rendir informes separados si se llevaban récords aparte o si era posible preparar informes que fueran sustancialmente correctos.

En el caso de un establecimiento que cambió de dueño

it continued to operate in the same line of activity. Every effort was made to coordinate the reports secured from both owners so that the consolidated report would reflect "annual" activity.

**Total employees, number.**--The term "Total employees" represents an annual average of all full-time and part-time persons on the payrolls of the establishment (except homeworkers and proprietors and partners actively engaged in plant operations) who received compensation in any part of four selected pay periods covered in the Census year. The averages were based on pay periods ending nearest the 15th of January, March, July, and October 1958.

**Salaries and wages, total.**--This total includes all forms of compensation (salaries, wages, commission, bonuses, vacation pay, and other remuneration) paid during the year to all employees of the establishment. Payroll is reported before deductions for Social Security, income tax, group insurance, union dues, etc. Direct payments to homeworkers, however, are not included.

**Production workers, number.**--"Production workers" comprise working foreman and all non-supervisory workers engaged at the plant in fabricating, processing, assembling, storage, packing, shipping, maintenance, repair, recordkeeping and all other services closely related to production operations.

**Production workers, wages.**--This item consists of that portion of the payroll (as defined above) paid to production workers of manufacturing establishments.

**Homeworkers wages.**--This item consists of payments made directly to homeworkers (who work outside the factory on materials supplied by the manufacturer, contractor, or subcontractor). Manufacturers did not report such payments if made through contractors or sub-contractors; the latter, however, were requested to report such payments to homeworkers.

**Cost of materials and contract work.**--This total consists of the cost of materials, supplies, fuels, electric energy, and contract work for all establishments of an industry in 1958. "Cost" refers to direct charges actually paid or payable for items consumed or put into production during the year. It represents the cost after discounts and includes freight and other direct charges incurred in acquiring these materials. As such, the figure includes the total delivered cost of all raw materials, semi-finished goods, parts, components, containers, scrap, and supplies consumed or put into production during 1958; it includes the amount paid for electric energy purchased and for all fuels consumed for heat, power, or generation of electricity; and it includes the cost of work done by others on materials furnished by the manufacturing establishment (contract work). On the other hand, it excludes the cost of products bought and resold in the same condition; it excludes the cost of services used, such as advertising, insurance, telephone, etc., and developmental, research, and consulting services of other establishments; it excludes overhead costs, such as depreciation charges, rent, interest, royalties, etc.; it ex-

durante el año 1958, el mismo se contó como un solo establecimiento, siempre que continuara operando en la misma línea de actividad. Se hizo todo esfuerzo posible por coordinar los informes obtenidos de ambos dueños de manera que el informe consolidado reflejara la actividad "anual" del establecimiento.

**Número total de empleados.**--El término "empleo total" se refiere a todas las personas incluidas en las nóminas de pago que trabajaran toda o parte de la jornada diaria (excepto los trabajadores a domicilio y dueños o socios activos) que hubieran recibido remuneración durante por lo menos uno de los cuatro períodos de pago considerados dentro del año censal, que son los que finalizaran cerca del día 15 de los meses de enero, marzo, julio y octubre de 1958.

**Salarios y jornales, total.**--Este total incluye toda forma de compensación (salarios, jornales, comisiones, bonos, paga por vacaciones, y cualquier otra remuneración) pagada durante el año a todos los empleados del establecimiento. El total de pagos es informado antes de hacer deducciones para Seguro Social, impuestos sobre ingresos, otros seguros, cuotas para sindicatos, etc. No se incluyen, sin embargo, los pagos hechos a trabajadores a domicilio.

**Número total de "obreros de producción y similares."**--Las "obreros de producción y similares" incluye a los capataces y toda clase de trabajadores de producción (incluyendo maestros y aprendices) ocupados en la fabricación, elaboración, montaje, inspección, almacenaje, recibimiento, manejo, empaque, embarque, mantenimiento, reparación, limpieza, vigilancia, manejo de récords y otras servicios estrechamente relacionadas con las operaciones productivas.

**Obreros de producción, jornales.**--Esta partida consiste de aquella parte de la nómina (según se define antes) pagada a los trabajadores de producción de los establecimientos manufactureros.

**Salarios de los trabajadores a domicilio.**--Esta partida consiste de las pagas hechos directamente a trabajadores a domicilio (quienes trabajan fuera de la fábrica con materiales suministrados por el fabricante, contratista, o sub-contratista). Los manufactureros no informaran dichos pagos cuando se hicieron a través de contratistas o sub-contratista; estos últimos, sin embargo, fueran los que informaran tales pagos a los trabajadores a domicilio.

**Costo de materiales y trabajo por contrato.**--Este total consiste del costo de materiales, efectos, combustibles, energía eléctrica, y trabajos por contrato para todos los establecimientos de una industria en 1958. "Costo" se refiere a los cargos directos realmente pagados o por pagarse por artículos consumidos o utilizados en la producción durante el año. Representa el costo después de hechos los descuentos, e incluye fletes y otros gastos incurridos en la adquisición de dichos materiales. Así pues, la cifra incluye el costo total de entrega de toda la materia prima, productos semi-elaborados, piezas, componentes, envases, chatarra, y otros materiales consumidos o utilizados en la producción durante 1958; incluye la cantidad pagada por la energía eléctrica comprada y por todo el combus-

cludes materials, machinery and equipment used in plant expansion or capitalized repairs, which are chargeable to fixed assets accounts.

It should be noted that a summation of industry cost of materials figures to industry group totals would result in large and unknown amounts of duplication, owing to the addition of costs reported by related industries engaged in successive fabrication stages in the production of finished manufactured products. For this reason, cost of materials, etc., figures are not shown at the industry group (3-digit) and major industry group (2-digit) levels. With some minor exceptions, this duplication is not significant within individual industries.

Value of shipments (Value of products sold and contract receipts).--This figure represents net selling value, f.o.b. plant, after discounts and allowances, of all shipments of products from manufacturing establishments of an industry in 1958, plus receipts for miscellaneous activities of such plants; it excludes freight charges and excise taxes. Products transferred to other establishments of the same company (such as other manufacturing plants, separate sales branches, or retail dealers) are valued at the nearest approximation to the commercial selling value, f.o.b. plant, and not the cost of production. It should be noted that, for establishments classified in a given industry, the value of shipments includes not only (a) their value of products "primary" to the industry, but also (b) their value of "secondary" products (which are primary to other industries), and (c) their "miscellaneous receipts" for repair work, sales of scrap, installation of own products, receipts for contract work, etc. In some industries which deliver their products directly to their customers, such as ice cream (2024), fluid milk and cream (2026), bottled soft drinks (2081), and ice (2097), some delivery costs are probably included in the value of shipments.

The element "value of products sold" consists of value of shipments (as defined above) less contract receipts and miscellaneous receipts.

The element "contract receipts" consists of receipts for work performed on materials owned by others. As contract receipts reported by contractors do not include the cost of the materials (owned by the manufacturer or jobber), the figure does not represent the total value of the product, but only the value of the work done by the contracting plant.

As in the case of cost of materials, a summation of industry value of shipments figures to industry group totals would

tible usado para producir fuerza o generar electricidad; y también incluye el costo del trabajo hecho por otros con materiales facilitados por el establecimiento manufacturero (trabajo por contrato). Del otro lado, excluye el costo de productos comprados y vendidos en la misma condición en que se compraron; excluye el costo de servicios usados, tales como anuncios, seguros, teléfonos, etc., y los servicios de consulto y estudios prestados por otros establecimientos, también se excluyen otros gastos de operación, tales como depreciación, alquiler de local, intereses, derechos, etc.; y excluye materiales, maquinaria y equipo usado en la operación de la fábrica o gastos de capital, los cuales se refieren a bienes fijos.

Es preciso hacer notar que el englobar los cifras del costo de materiales industriales con los totales de los grupos de industrias resultaría en una duplicación considerable y desconocida, debido a que se sumarían costos informados por industrias relacionadas dedicadas a los distintos etapas de la producción de artículos terminados. Por tal motivo, las cifras para los costos de materiales, etc., no son presentados para los grupos de industrias con clave de tres dígitos ni para los grupos principales de industrias con clave de dos dígitos. Con pequeñas excepciones, esta duplicación no es significativo dentro de industrias individuales.

Valor de los ventos.--(Valor de los productos vendidos e ingresos por trabajo contratado). Esta cifra representa el valor neto de venta, f.o.b. fábrica, luego de las deducciones y descuentos, de todo lo vendido de productos de los establecimientos manufactureros de una industria en 1958, más los ingresos por las actividades misceláneas de dichos fábricas; excluye fletes e impuestos. Los productos que se transfieren a otros establecimientos de la misma compañía (tales como otros establecimientos manufactureros, sucursales de venta, o vendedores al detal) son valorados a la aproximación más cercana del valor comercial, f.o.b. fábrica, y no al costo de producción. Se debe observar que, para los establecimientos clasificados dentro de una industria en particular, el valor de los ventos incluye no sólo (a) su valor de productos primarios a dicha industria, sino también (b) su valor de productos secundarios (los cuales son primarios para otras industrias), y (c) sus "ingresos misceláneos" por trabajos de reparación, venta de chatarra, instalación de sus propios productos, trabajos por contrato, etc. En algunas industrias que entregan sus productos directamente a los consumidores, tales como montecados y helados (2024), leche y crema (2026), bebidas carbonatadas (2081), e hielo (2097) algunos de los costos de entrega probablemente son incluidos en el valor de las ventas.

El factor "valor de los productos vendidos" consiste del valor de los ventos (según se define antes) menos los ingresos por trabajos por contrato e ingresos por actividades misceláneas.

El factor "ingresos por trabajos por contrato" consiste de los ingresos por trabajo efectuado con materiales propiedad de otros. Como los ingresos informados por contratistas no incluyen el costo de los materiales (pertenecientes al manufacturero) el cifra no representa el valor total del producto, sino solo el valor del trabajo hecho por la fábrica contratante.

result in large and unknown amounts of duplication, owing to the addition of shipments reported by related industries engaged in successive fabrication stages in the production of finished manufactured products. For this reason, value of shipments totals are ordinarily not shown at the industry group level. This duplication is not significant within individual industries, except for a few minor exceptions.

In a few selected tables, however, value of products sold for industry groups are presented in order to indicate their aggregate levels of output. Such totals, of course, should be interpreted with extreme caution, because of this basic limitation of significance of such aggregates. The duplication is particularly significant when industries within the same major industry group perform successive stages in the manufacture of a product, such as raw cane sugar mills and distilleries, sugar mills, refineries, and confectionery plants in the Food and Kindred Products group; or, as in the case of tobacco stemming and redrying, cigars and chewing and smoking tobacco.

**Value added by manufacture.**--This measure is derived by adding work-in-process and finished products inventory changes to the value of shipments of manufacturing establishments (including value of resales) in each industry and subtracting from this total the cost of raw materials, semi-manufactured parts and components, supplies, products bought and resold in the same condition, fuels, purchased electric energy, and contract work. It avoids, therefore, the duplication in the value of shipments which results from the use of products of some establishments as materials by others. As such, it is the best value measure available for comparing the relative economic importance of manufacturing among industries and geographic areas.

**Destination of products sold and source of contract receipts.**--This item refers to the destination of the products or services sold. In the case of contract receipts, contractors reported the origin of payments for contract work performed on materials owned by others.

**Inventories.**--The value of inventories at the beginning and end of the year, respectively, were obtained from each establishment with an annual average employment of five or more employees. Data were collected for (1) finished products, (2) work-in-process, and (3) materials, supplies, fuels and other inventories.

**Expenditures for plant and equipment.**--Expenditures for plant and equipment (capital expenditures) are those which were chargeable during 1958 to fixed asset accounts for which

Al igual que en el caso del costo de los materiales, el englobar las cifras sobre valor de los productos vendidos con los totales de los grupos de industrias resultaría en una considerable y desconocida duplicación, debido a que se sumarían las ventas informadas por industrias relacionadas dedicadas a las etapas sucesivas de fabricación en la producción de artículos terminados. Por tal motivo, los totales para el valor de los productos vendidos por lo general no se presentan para grupos de industrias. Esta duplicación no adquiere importancia para las industrias individuales, con excepción de algunos casos insignificantes.

En algunas tablas, sin embargo, se presenta el valor de los productos vendidos para grupos de industrias con el fin de indicar sus niveles ponderados de producción. Por supuesto, dichos totales deben ser interpretados con cuidado debido a las limitaciones básicas del significado de dicha ponderación. La duplicación se vuelve particularmente significativa cuando las industrias dentro de un mismo grupo principal llevan a cabo etapas sucesivas de fabricación de un producto, por ejemplo, centrales azucareras y destilerías, refinerías de azúcar, y fábricas de dulces y confites dentro del grupo de Comestibles y Productos Relacionados; o como en el caso de despallado y resaca de tabaco, fábrica de cigarros y tabaco de mascar y fumar.

**Valor agregado por la manufactura.**--El "valor agregado por la manufactura" se obtiene sumando los cambios en inventarios de productos terminados y artículos en proceso al valor de las ventas de los establecimientos manufactureros en cada industria (incluyendo valor de las reventas) y restando de este total el costo de materia prima, piezas y componentes, efectos, productos comprados y vendidos en la misma condición en que se compraron, combustible, energía eléctrica comprada, e ingresos de trabajos por contrato. Esto evita, por lo tanto, la duplicación en el valor de las ventas lo cual resulta cuando algunos establecimientos usan como materiales los productos de otros establecimientos. Como tal, ésta es la mejor medida de valor que se tiene disponible para comparar la importancia económica relativa de la manufactura entre industrias y entre áreas geográficas.

**Destino de los productos vendidos y fuentes de ingresos por contratos.**--Esta pregunta se refiere al lugar de destino de los productos vendidos y de los servicios prestados. En el caso de los ingresos por contratos, los contratistas informaron el origen de los pagos por trabajo contratado y hecho con materiales que eran propiedad de otros.

**Inventarios.**--El valor de los inventarios de principio y de fin de año respectivamente fueron obtenidos de los establecimientos con un promedio anual de cinco o más empleados. Se obtuvieron datos para (1) productos terminados, (2) trabajo en proceso de fabricación, y (3) materiales, efectos, combustibles, y otros inventarios.

depreciation accounts were maintained. "Expenditures for new plant and equipment" includes: expenditures during 1958 for new structures and additions (including major alterations, capitalized repairs and improvements) to the manufacturing plant, whether on contract or by the plant's own work force; new machinery and equipment; capitalized repairs and improvements to existing machinery and equipment. Excluded from the new expenditures total are those expenditures for "used" plant and equipment acquired from others, and expenditures for land.

Data shown in the table on expenditures for plant and equipment were obtained from all establishments with five or more employees. The first two columns provide a measure of the importance of these establishments in terms of value added by manufacture. It should not be assumed, however, that the same proportion of value added accounted for by establishments with less than five employees can be applied to obtain a measure of capital expenditures by these small plants. Typically, smaller firms have smaller expenditures per dollar of value added than larger firms.

**Tax-exempt establishments.**--The term "tax-exempt," as used in this report, refers to all establishments in manufacturing industries that were not required to pay taxes to the Government of the Commonwealth of Puerto Rico during 1958 in accordance with the provisions of Act No. 184 of May 18, 1948.

**Inversiones de capital.**--Los gastos de edificio y equipo (inversiones de capital) son los incurridos en 1958, que corresponden a bienes fijos para los cuales se llevan cuentas de depreciación. La "inversión para nuevos edificios y equipo" incluye: gastos en 1958 para nuevos edificios o ampliación de los viejos (incluyendo reparaciones mayores y mejoras) al establecimiento manufacturero, ya sea por contrato o hecho por los mismos trabajadores del establecimiento; nueva maquinaria y equipo; y reparaciones y mejoras al equipo existente. Se excluyen los gastos para edificio y equipo usado obtenido de otros y para la compra de terreno.

Los datos que aparecen en las tablas para inversiones de capital fueron obtenidos de todos los establecimientos con cinco o más empleados. Las primeras dos columnas de dichas tablas ofrecen una medida de la importancia de estos establecimientos en términos del valor agregado por la manufactura. No se debe asumir, sin embargo, que la misma proporción de valor agregado correspondiente a los establecimientos con menos de cinco empleados se puede aplicar para obtener una medida de inversión de capital para estos pequeños establecimientos. Comúnmente, las empresas más pequeñas tienen menores gastos por dólar de valor agregado que las empresas mayores.

**Establecimientos exentos de pago de impuestos.**--El término "exento del pago de impuestos," tal como se usa en este informe, se refiere a todos los establecimientos y las industrias manufactureras que no tuvieron que pagar impuestos al gobierno del Estado Libre Asociado de Puerto Rico durante el año 1958 de acuerdo con la Ley Núm. 184 del 18 de mayo de 1948.

## **SUMMARY STATISTICS**

(1)

Table 1.--GENERAL STATISTICS FOR PUERTO RICO: 1958 AND EARLIER YEARS  
(Dollar figures in thousands. See Introduction for explanation of terms)

Item	All industries		All industries, except coffee roasting and tobacco stemming and redrying <sup>1</sup>						
	1958	1954	1958	1956	1954	1949	1939	1919	1909
Number of establishments .....	2,042	1,938	1,967	1,955	1,865	1,937	798	619	939
Proprietors and working partners, number .....	1,181	1,298	1,139	1,237	1,246	1,768	953	787	1,478
All employees:									
Number (average for the year) ..	71,188	69,022	68,024	67,834	60,322	49,052	25,758	17,667	16,644
Salaries and wages, total .....	\$132,169	\$83,263	\$128,924	\$103,871	\$77,321	\$46,215	\$12,676	\$9,104	\$4,898
Production and related workers:									
Number (average for the year) ..	60,047	60,336	57,147	58,556	51,965	42,012	23,484	15,985	15,582
Wages, total .....	\$93,320	\$59,289	\$90,748	\$74,896	\$54,025	\$33,174	\$9,220	\$6,766	\$3,639
All other employees:									
Number (average for the year) ..	11,141	8,686	10,877	9,278	8,357	7,040	2,274	1,682	1,062
Salaries and wages, total .....	\$38,849	\$23,974	\$38,176	\$28,962	\$23,291	\$13,040	\$3,455	\$2,339	\$1,259
Value added by manufacture .....	<sup>2</sup> \$292,142	<sup>2</sup> \$199,706	<sup>2</sup> \$285,309	<sup>2</sup> \$243,791	<sup>2</sup> \$190,554	\$87,043	\$35,219	\$25,522	\$15,249

<sup>1</sup> These activities were considered nonmanufacturing and were not included in the scope of the 1939 and earlier censuses. The 1958, 1956, 1954, and 1949 statistics, therefore, have been adjusted to make them comparable with those for 1939, 1919, and 1909.

<sup>2</sup> Changes on finished-products and work-in process inventories were included in the computation of value added.

Table 2.--GENERAL STATISTICS FOR PUERTO RICO, BY REGIONS AND STANDARD METROPOLITAN STATISTICAL AREAS: 1958 AND 1954  
(Dollar figures in thousands. See Introduction for explanation of column captions)

D Withheld to avoid disclosing figures for individual companies.

Table 5.--SELECTED STATISTICS FOR MANUFACTURING ESTABLISHMENTS CLASSIFIED BY EMPLOYMENT SIZE, FOR INDUSTRY GROUPS AND SPECIFIED INDUSTRIES  
IN PUERTO RICO: 1958

(Dollar figures in thousands. Figures for any size class which cannot be shown without disclosing information for individual companies have been combined with figures for an adjacent size class. A (D) appears in the column where the figure has been withheld and the combined figure is underscored. As a result, whenever size class figures for industry groups are underscored, or a (D) appears, the figures for the industry groups will not add to the Puerto Rico total for that size class. See Introduction for explanation of items)

... Represents zero.

<sup>1</sup> Includes the following major industry groups which were combined to avoid disclosing figures for individual companies: Group 26, Paper and allied products; Group 29, Products of petroleum and coal; Group 30, Rubber products; Group 37, Transportation equipment.

Table 6.--VALUE OF MANUFACTURERS' INVENTORIES HELD BY ESTABLISHMENTS WITH 10 EMPLOYEES OR MORE, FOR INDUSTRY GROUPS AND SELECTED INDUSTRIES IN PUERTO RICO: END OF YEAR, 1958 AND 1957

(In thousands of dollars. Data on inventories were obtained from all establishments with 10 employees or more. The first two columns provide a measure of the importance, based on value added by manufacture, of those establishments required to complete the inventory inquiry. The second column includes figures for establishments reporting that they had no inventories on either of the specified dates. See Introduction for explanation of column captions)

Ind. code	Industry group and industry	Value added by manufacture, 1958		Value of inventories held by establishments with 10 employees or more

Table 7.--EXPENDITURES FOR PLANT AND EQUIPMENT BY ESTABLISHMENTS WITH 10 EMPLOYEES OR MORE, FOR INDUSTRY GROUPS AND SELECTED INDUSTRIES IN PUERTO RICO: 1958

(In thousands of dollars. Data on expenditures for plant and equipment were obtained from all establishments with 10 employees or more. The first two columns provide a measure of the importance, based on value added by manufacture, of those establishments required to complete the expenditure inquiry. The second column includes figures for establishments that reported no expenditures for plant and equipment in 1958. It should not be assumed, however, that the same proportion of value added accounted for by establishments with less than 10 employees can be applied to obtain a measure of capital expenditures by these small plants. Typically, smaller firms have smaller expenditures per dollar of value added than larger firms. See Introduction for explanation of column captions.)

Table 3.--SELECTED STATISTICS BY EMPLOYMENT SIZE OF ESTABLISHMENT, BY REGIONS AND STANDARD METROPOLITAN STATISTICAL AREAS: 1958

(Dollar figures in thousands. Figures for any size class which cannot be shown without disclosing information for individual companies have been combined with figures for an adjacent size class. A (D) appears in the column where the figure has been withheld and the combined figure is underscored. As a result, wherever size class figures for industry groups are underscored, or a (D) appears, the figures for the industry groups will not add to the Puerto Rico total for that size class. See Introduction for explanation of items)

Bottled soft drinks and carbonated water.....	11,806	11,806	...
Flavoring extracts and sirups.....	200	200	...
Manufactured ice.....	561	561	...
Macaroni and spaghetti.....	1,027	1,027	...
Roasted coffee.....	22,541	22,530	11
Other food products.....	11,479	11,471	8
Tobacco manufactures:			
Cigars.....	10,689	10,689	...
Chewing and smoking tobacco and snuff.....	122	122	...
Tobacco, redried.....	3,531	3,531	...
Tobacco, stemmed.....	6,748	5,737	1,011
Barny tobacco.....	5,792	5,792	...
Textile mill products:			
Knit outerwear.....	17,109	15,665	1,444
Knit fabrics.....	4,754	4,705	49
Finishing textiles, except wool and knit goods.....	424	221	203
Carpets and rugs.....	3,514	3,141	373
Yarn: cotton and man-made fiber and silk.....	2,593	2,593	...
Yarn: wool.....	1,986	1,970	16
Broad woven fabrics, hosiery, other knitting mill products, and other textile mill goods.....	7,489	6,461	1,028
Apparel and related products:			
Men's and boys' suits and coats.....	1,402	1,305	97
Men's and boys' shirts and nightwear.....	5,208	4,431	777
Men's and boys' underwear and neckwear.....	2,984	2,680	304
Men's and boys' separate trousers.....	4,349	4,045	304
Men's and boys' work clothing and miscellaneous clothing	4,151	4,072	79
Women's and misses' blouses, waists, and shirts.....	3,125	2,232	893
Women's and misses' dresses.....	992	979	13
Women's and misses' suits, coats, and skirts.....	1,269	1,269	...
Other women's and misses' outerwear.....	4,357	3,432	925
Women's, misses' and children's underwear and nightwear.	8,361	7,124	1,237
Corsets and allied garments.....	22,651	15,067	7,584
Men's and boys' hats and caps.....	330	330	...
Children's and infants dresses, blouses, waists, and shirts.....	3,870	2,933	937
Other children's and infants' outerwear.....	2,709	2,709	...
Gloves, fabric and combination fabric-leather.....	4,958	3,672	1,286
Other apparel: belts, raincoats, etc.....	416	310	106
Handkerchiefs.....	1,491	...	1,491
Other housefurnishings.....	1,320	907	413
Canvas products.....	143	143	...
Pleating, decorative and novelty stitching, and tucking for the trade.....	216	113	103
Embroideries, except Schiffli-machine.....	702	...	702
Apparel findings and related products.....	1,890	1,605	285
Other fabricated textile products.....	762	389	373

See footnotes at end of table.

Table 2.--VALUE OF PRODUCTS SOLD AND CONTRACT RECEIPTS, BY PRODUCT, FOR PUERTO RICO: 1958--Continued

(In thousands of dollars)

Product	Value of shipments		
	Total <sup>1</sup>	Value of product sold	Contract receipt
Lumber and wood products, except furniture :			
Millwork products.....	2,364	2,364	...
Rattan, bamboo and willow ware, except furniture.....	25	25	...
Sawmills and planing mills, general, wood preserving and other wood products.....	639	639	...
Furniture and fixtures:			
House furnitures.....	3,337	3,337	...
Wood living room furniture, not upholstered.....	228	228	...
Wood dining room furniture, not upholstered.....	432	432	...
Wood bedroom furniture, not upholstered.....	997	997	...
Other wood household furniture, not upholstered.....	3,348	3,348	...
Household furniture upholstered.....	1,425	1,425	...
Metal household furniture.....	1,533	1,533	...
Mattresses.....	2,852	2,852	...
Bedsprings.....	1,686	1,686	...
House furniture rattan, wood, and reed.....	405	405	...
Office furniture.....	65	65	...
Public building furniture.....	309	309	...
Wood partitions, shelving, and fixtures.....	93	93	...
Dual purpose furniture, venetian blinds and window shades, metal partitions, shelving and fixtures, and other furniture and fixtures.....	201	201	...
Paper and allied products:			
Paperboard and cardboard, envelopes, paper bags, die cut paper and paperboard, paperboard boxes, and other paper mill products.....	9,254	9,254	...
Printing and publishing industries:			
Newspapers, periodicals, and books.....	5,778	5,778	...
Commercial printing, except lithographic.....	2,722	2,672	50
Commercial printing, lithographic.....	1,544	1,474	70
Bookbinding and related work.....	14	14	...
Photoengraving.....	155	155	...
Engraving and plate printing, manifold business forms, greeting card manufacturing, blankbook and looseleaf binders, and typesetting.....	378	378	...
Chemicals and allied products:			
Industrial gases.....	676	676	...
Industrial inorganic and organic chemicals (including plastics, synthetics, and medicinal chemicals).....	5,974	5,974	...
Pharmaceutical preparations.....	2,225	2,225	...
Specialty cleaning, polishing, and sanitation preparations, including soap and detergents.....	410	410	...
Essential oils, perfumes, cosmetics and other toilet preparations.....	1,356	1,356	...
Paints and varnishes.....	774	774	...
Fertilizers (mixing only).....	12,784	12,784	...
Fireworks and pyrotechnics.....	28	28	...
Other chemicals and chemical products including manufacturing and mixing of fertilizers, agricultural pesticides, salt, and distilled water.....	3,835	3,835	...
Petroleum and coal products:			
Paving mixtures and blocks.....	1,427	1,427	...
Rubber and miscellaneous plastic products:			
Miscellaneous plastic products, except clothing, toys and dolls.....	7,604	7,546	58
Rubber footwear and fabricated rubber products.....	2,550	2,550	...
Leather and leather products:			
Leather tanning and finishing and luggage.....	3,072	3,072	...
Footwear, except house slippers.....	7,257	7,105	152
House slippers.....	906	906	...
Women's handbags and purses.....	139	139	...
Personal leather goods.....	4,190	4,183	7
Boot and shoe cut stock and findings, leather gloves, and other leather products.....	524	467	57
Stone, clay, and glass products:			
Glass products made from purchased glass.....	208	208	...
Structural clay products and cement (hydraulic).....	14,606	14,606	...
Concrete brick and block.....	2,465	2,465	...
Other concrete products, except ready mixed concrete.....	4,847	4,847	...
Ready mixed concrete.....	7,312	7,312	...
Lime and gypsum products.....	315	315	...

## LEGISLATION AUTHORIZING CENSUS OF MANUFACTURES FOR PUERTO RICO

## I. Law passed by legislature of Puerto Rico:

## ACT NO. 11

To authorize the taking of manufacturing and business censuses, and to fix penalties for the violation of this Act.

## BE IT ENACTED BY THE LEGISLATURE OF PUERTO RICO:

Section 1. - The Governor of Puerto Rico shall, whenever he deems it of public advisability, direct that manufacturing and business censuses be taken in Puerto Rico; PROVIDED, That in the year 1950 there shall be taken censuses of this nature, which may include the operations carried out during the year 1949.

Section 2. - The Governor of Puerto Rico may execute agreements with the Bureau of the Census of the Department of Commerce of the United States, so that the said Bureau may have charge of the work of taking manufacturing and business censuses in Puerto Rico.

Section 3. - It shall be compulsory for any owner, officer, agent, manager or assistant of any company, business, institutions, establishment, or other organization of whom information is sought by officers or representatives of the officers of manufacturing and business censuses, to answer, correctly and in full, to his best knowledge and belief, all questions asked him through questionnaires prepared therefor, concerning his business or to statistics or records in his custody. Any person violating the provisions of this section by refusing to furnish any information requested shall be guilty of a misdemeanor and shall, upon conviction thereof be punished by a fine of not less than one hundred (100) dollars nor more than five hundred (500) dollars, or by imprisonment in jail for a term of not more than three (3) months, or by both penalties, in the discretion of the court; and any person violating the provisions of this section by knowingly furnishing false information, shall be punished by a fine of not more than five thousand (5,000) dollars, or by imprisonment in jail for a term of not more than twelve (12) months, or by both penalties, in the discretion of the court.

Section 4. - The information furnished here-under shall be used solely for the statistical purposes for which it was furnished.

Section 5. - Any supervisor, enumerator, clerk, or other person employed in taking manufacturing and business censuses who, without prior authorization publishes or divulges any information obtained by him in his capacity of employee of said census, shall be guilty of a felony and shall, upon conviction thereof, be punished by a fine of not more than five thousand (5,000) dollars or by imprisonment in the penitentiary for a term of not more than two (2) years, or by both penalties, in the discretion of the court; or if he should knowingly fill out a false questionnaire, he shall be guilty of a felony and shall, upon conviction thereof, be punished by a fine of not more than ten thousand (10,000) dollars or by imprisonment in the penitentiary for a term of not more than five (5) years, or by both penalties, in the discretion of the court; or if he should knowingly falsely swear to and/or affirm the truth of any statement made and/or signed by him under oath or affirmation in accordance with the provisions of this Act, he shall be guilty of perjury and shall, upon conviction thereof, be punished by a fine of not more than ten thousand (10,000) dollars, or by imprisonment in the penitentiary for a term of not more than five (5) years, or by both penalties, in the discretion of the court.

Section 6. - This act, being of an urgent and necessary character, shall take effect immediately after its approval.

Approved March 27, 1950

## LEGISLACION AUTORIZANDO EL CENSO DE MANUFACTURAS DE PUERTO RICO

## I. Ley aprobada por la legislatura de Puerto Rico:

## LEY NUM. 11

Para autorizar que se lleven a cabo en Puerto Rico censos de manufactura y negocios, y para fijar penalidades por las infracciones de esta ley.

## DECRETASE POR LA ASAMBLEA LEGISLATIVA DE PUERTO RICO

Sección 1. - El Gobernador de Puerto Rico ordenará, cuando estime que así hacerlo es de conveniencia pública, que se lleven a cabo en Puerto Rico censos de manufactura y negocios; DISPONIENDOSE, que en el año 1950 se realizarán censos de esta naturaleza y estos podrán incluir las operaciones llevadas a cabo durante el año 1949.

Sección 2. - El Gobernador de Puerto Rico podrá formalizar acuerdos con el Negociado del Censo del Departamento de Comercio de los Estados Unidos para que sea este Negociado el que conduzca la labor de levantamiento de los censos de manufactura y negocios en Puerto Rico.

Sección 3. - Será obligación de cada dueño, oficial, agente, encargado o ayudante del encargado de cualquier compañía, negocio, institución, establecimiento o cualquier otra organización, que sea requerida de información por oficiales o representantes de los oficiales de los censos de manufactura y negocios, a contestar correctamente y en su totalidad, según su mejor conocimiento, todas las preguntas referentes a su negocio o a records o estadísticas bajo su custodia, que le sean formuladas a través de los cuestionarios preparados al efecto. Cualquier persona que viole las disposiciones de esta sección negándose a suministrar cualquier, información requerida, será considerada culpable de un delito menos grave (misdemeanor) y convicta que fuere se le impondrá una multa no menor de cien (100) dólares ni mayor de quinientos (500) dólares, o carcel por un término que no excederá de tres (3) meses, o ambas penas a discreción del tribunal; y cualquier persona que viole las disposiciones de esta sección suministrando a sabiendas datos falsos será multada en no más de cinco mil (5,000) dólares, o carcel por un término que no exceda de doce (12) meses o ambas penas a discreción del tribunal.

Sección 4. - La información suministrada de acuerdo con las disposiciones de esta ley será usada únicamente, para los fines estadísticos para los cuales se suministró.

Sección 5. - Cualquier supervisor, enumerador, oficinista u otra persona empleada en el levantamiento de los censos de manufactura y negocios, que sin autorización previa publique o divulgue información obtenida por él a través de su condición de empleado en estos censos, será reo de un delito grave (felony) y convicto que fuere se le impondrá una multa no mayor de cinco mil (5,000) dólares o presidio por un término que no exceda de dos años, o ambas penas a discreción del tribunal; o si a sabiendas llenare un cuestionario ficticio será culpable de un delito grave (felony), y convicto que fuere se le impondrá una multa no mayor de diez mil (10,000) dólares o prisión por un término que no exceda de cinco (5) años, o ambas penas a discreción del tribunal o si a sabiendas jurare y/o afirmare falsamente en cuanto a la veracidad de cualquier declaración hecha y/o suscrita por el bajo juramento o afirmación con arreglo a las disposiciones de esta ley será culpable de perjurio, y convicto que fuere se le impondrá una multa que no exceda de diez mil (10,000) dólares, o presidio por un término que no exceda de cinco (5) años o ambas penas a discreción del tribunal.

Sección 6. - Esta Ley, por ser de carácter urgente y necesaria, empezará a regir inmediatamente después de su aprobación.

Aprobada en 27 de marzo de 1950

## SECTIONS OF TITLE 13, UNITED STATES CODE, APPROVED AUGUST 31, 1954

Collection and Publication: Five-year Periods (131)

The Secretary shall take, compile, and publish censuses of manufactures, of mineral industries, and of other businesses ... in the year 1954 and every fifth year thereafter, and each such census shall relate to the year immediately preceding the taking thereof: Provided, That the censuses of manufactures, of mineral industries, and of other businesses, including the distributive trades and service establishments, directed to be taken in the year 1954 relating to the year 1953, shall be taken instead in the year 1955 relating to the year 1954. The censuses provided for in this section shall include the United States and its Territories and such possessions as the Secretary may determine.

Failure to Answer Questions Affecting Companies, Businesses, Religious Bodies, and Other Organizations: False Answers (224)

Whoever, being the owner, official, agent, person in charge, or assistant to the person in charge, of any company, business, institution, establishment, religious body, or organization of any nature whatsoever, neglects or refuses, when requested by the Secretary or other authorized officer or employee of the Department of Commerce or bureau or agency thereof, whether such request be made by registered mail, by telegraph, by visiting representative, or by one or more of these methods, to answer completely and correctly to the best of his knowledge all questions relating to his company, business, institution, establishment, religious body, or other organization, or to records or statistics in his official custody, contained on any census or other schedule prepared and submitted to him under the authority of this title, shall be fined not more than \$500 or imprisoned not more than sixty days, or both; and if he willfully gives a false answer to any such question, he shall be fined not more than \$10,000 or imprisoned not more than one year, or both.

COMMONWEALTH OF PUERTO RICO  
LA FORTALEZA

San Juan, P. R., December 12, 1958

Administrative  
Bulletin  
No. 456

PROCLAMATION

BY THE GOVERNOR OF THE COMMONWEALTH  
OF PUERTO RICO

1958 Census of Business and Manufactures

WHEREAS, the Government of the Commonwealth of Puerto Rico is fostering a program of economic development, both commercial and industrial, for the purpose of creating new opportunities for employment and improving the standard of living of our people;

WHEREAS, it is in the interest of the people of Puerto Rico to take inventories of their commercial and industrial resources and determine periodically the levels of progress achieved under its program;

WHEREAS, the most recent information concerning the Censuses of Business and Manufactures, covering the years 1949, 1952, 1954, and 1956 respectively, does not reflect current business and industrial progress, thus making it necessary to bring such information up to date in order to assess properly the economic and social progress of the period;

WHEREAS, Act No. 11, approved March 27, 1950, provides that Censuses of Business and Manufactures be taken in Puerto Rico, whenever the Governor deems that they are in the public interest; the Act also requiring that merchants and manufacturers answer all questions fully and faithfully and guaranteeing that the information supplied will be accorded confidential treatment and will be used for statistical purposes only;

NOW, THEREFORE, I, LUIS MUÑOZ MARIN, Governor of the Commonwealth of Puerto Rico, by virtue of the power vested in me by Law No. 11 of March 27, 1950, do hereby proclaim and ordain that Censuses of Business and Manufactures covering the calendar year 1958 be taken in Puerto Rico; and I designate the United States Bureau of the Census and Puerto Rico Planning Board to fulfill the provisions of the aforementioned Law of the present Proclamation.

IN WITNESS THEREOF, I have hereunto set my hand and caused the Great Seal of the Commonwealth of Puerto Rico to be affixed, at the City of San Juan this 12th day of December, nineteen hundred and fifty-eight.

(Sgd.)  
LUIS MUÑOZ MARIN  
Governor

Promulgated according to Law, this 12th day of December, 1958.

Assistant Secretary of State

ESTADO LIBRE ASOCIADO DE PUERTO RICO  
LA FORTALEZA

San Juan, P. R., 12 de diciembre de 1958

Boletín  
Administrativo  
Núm. 456

PROCLAMA  
DEL GOBERNADOR DEL ESTADO LIBRE ASOCIADO  
DE PUERTO RICO

Censo de Negocios y de Manufacturas, 1958

POR CUANTO, el Gobierno del Estado Libre Asociado de Puerto Rico está propulsando un programa de desarrollo económico, mercantil e industrial con el propósito de crear nuevas oportunidades de trabajo y mejorar los niveles de vida de nuestro pueblo;

POR CUANTO, conviene a los intereses generales del pueblo de Puerto Rico levantar inventarios de sus recursos comerciales e industriales y determinar sus niveles de progreso periódicamente;

POR CUANTO, la información más reciente sobre Censos de Negocios y Manufacturas correspondientes a los años 1949, 1952, 1954, 1956 respectivamente, no refleja los niveles de progreso comercial e industrial alcanzados durante los últimos años, y se hace necesario actualizar la información para ponerla a tono con el avance social y económico logrado;

POR CUANTO, la Ley Núm. 11 aprobada el 27 de marzo de 1950 dispone que se lleven a cabo en Puerto Rico censos de manufacturas y negocios cuando el Gobernador estime que así hacerlo es de conveniencia pública; y dispone, además, que los establecimientos comerciales y manufactureros deben llenar cabal y fielmente los cuestionarios necesarios, garantizándoseles en la misma Ley que la información que suministren será de carácter confidencial y solamente será usado para fines de tabulación estadística;

POR TANTO, YO, LUIS MUÑOZ MARIN, Gobernador del Estado Libre Asociado de Puerto Rico, a virtud de los poderes que confiere la dicha Ley Núm. 11 del 27 de marzo de 1950, por la presente proclamo y ordeno que se lleven a cabo en Puerto Rico Censos de Negocios y Manufacturas para el año natural de 1958; y designo a la Junta de Planificación para que en cooperación con el Negociado del Censo de Estados Unidos lleve a cabo dichos censos para dar cumplimiento a la Ley de referencia y a las disposiciones de la presente proclama.

EN TESTIMONIO DE LO CUAL, firmo la presente y hago estampar en ella el Gran Sello del Estado Libre Asociado de Puerto Rico, en la Ciudad de San Juan, hoy día 12 de diciembre, A. D. mil novecientos cincuenta y ocho.

(Fdo.)  
LUIS MUÑOZ MARIN  
Gobernador

Promulgada de acuerdo con la ley, hoy 12 de diciembre de 1958.

(Fdo.) N. ALMIROTY  
Secretario Auxiliar de Estado

## INSTRUCTIONS FOR PREPARING FORM

## 1958 PUERTO RICO CENSUS OF MANUFACTURES

## INSTRUCTIONS TO MANUFACTURERS FOR PREPARING FORM PR-MC-100

## INTRODUCTION

Please complete and return this form to the Office of the Census shown on the enclosed envelope not later than 30 days after you receive it. A separate report is required for each manufacturing establishment. If you owned more than one manufacturing establishment in 1958 but have received a report form for only one place, list each establishment in the "Remarks" section of the report. Then return this form using the enclosed envelope and you will be sent the appropriate number of report forms for completion.

Please read all instructions and fill in all items (with the exception of Item 11b, if not applicable). Enter "None" or "0" (Zero) when applicable to any item and explain, if necessary, in the "Remarks" section.

This report should cover the calendar year 1958. If your book records are not on a calendar-year basis, carefully prepared estimates for this period will be accepted. If this procedure will involve you in considerable additional costs, your fiscal year figures will be accepted provided nine months or more of the year 1958 are included in your fiscal year coverage. However, all employment (item 7), hours worked (item 8), and payroll (item 9) figures should relate to the calendar year rather than the fiscal year.

## ITEMS ON THE REPORT FORM

Item 1.-Name of Establishment (Factory, Plant, or Mill).-Enter the name under which the establishment covered by this report does business. If it is one of several establishments doing business under the same name, also give the name or number by which it is distinguished from other establishments of the same company. For example: "ABC Sugar Company, Guaynabo Refinery".

Item 2.-(See Instructions on Form.)

Item 3.-(See Instructions on Form.)

Item 4.-Company Affiliation.-A separate report must be submitted for each establishment listed in part "c".

Item 5.-(See Instructions on Form.)

Item 6b.-If box (3) is checked, indicate in the "Remarks" section the disposition of the plant, i.e., unoccupied, demolished, dismantled, etc.

Item 7.-Number of Employees in 1958.-Report employees at this establishment who worked or received pay for any part of the pay period (preferably 1 week) ended nearest the 15th. of the months specified on the report form. Include all persons on paid sick leave, paid holidays, and paid vacation during this pay period. If employment in any of these pay periods was unusually low because of a strike or for some other reason, state the reason in the "Remarks" section of the form.

Item 8.-Hours Worked by Production and Related Workers, by Quarters.-If you pay your employees on a piece-work basis, a reasonable estimate of the number of hours worked by all production and related workers during each quarter will be accepted.

Item 9.-Total 1958 Payrolls.-Report the gross earnings paid in calendar year 1958 to employees on the payroll of this establishment, including commissions, dismissal pay, all bonuses, vacation and sick leave pay, and compensation in kind, and prior to such deductions as employees' Social Security contributions, group insurance, union dues, and saving bonds. (You may follow the definition of salaries and wages that is used for calculating Social Security deductions.)

Item 10.-Selected Manufacturing Costs.-"Cost" refers to direct charges actually paid or payable after discounts, but including freight charges and other direct charges incurred in acquiring the materials. For materials, parts, etc., transferred from other establishments of this company, report the nearest approximation to their commercial cost.

Item 10a.-Include items received prior to 1958 if they were consumed during the year, but do not include items received in 1958 if they were not consumed. If your records do not show the actual amounts consumed, but purchases closely approximate consumption, purchase figures may be used. Report the total delivered cost of all raw materials, semifinished goods, parts, components, containers, scrap, and supplies consumed or put into production during 1958 by this establishment. Include cost of materials and supplies used in maintenance and repair of your plant and equipment.

Item 10b.-Give the cost of all products bought and resold in the same condition as when purchased and not made part of another product manufactured by this establishment.

Item 10c.-Report total amount paid during 1958 for electric energy purchased.

Item 10d.-Report the total amount actually paid or payable during 1958 for all fuels consumed for heat and power. Include the cost of gasoline used for motor vehicles. Do not include purchased fuels used as raw materials. Do not include the value of electric energy purchased or of fuel produced in your establishment, e.g., bagasses or self-produced electricity.

Item 10e.-If any work was done by others on materials furnished by your establishment, report the total 1958 payments for such work, including freight in and out. Exclude the cost of materials worked on which should be included in item 10a.

The dates given in the certification should show the exact period for which this report is made. Thus, if an establishment began to operate or ceased to operate within the year, the dates will show that part of the year covered by the report. Complete the report only for that part of the year 1958 in which you operated the establishment.

Each report should cover all of the production activities (manufacturing, fabricating, processing, and assembling) conducted within the establishment. It should also include activities such as maintenance of plant and equipment, receiving, shipping, warehousing, storage, research, record keeping, health, safety, cafeteria, and other services, when carried on at the same physical location by the manufacturing establishment. The report should exclude sales branches, sales offices, power plants, retail stores, and general administrative offices, if they are operated as separate establishments. Separate Census reports should be submitted for each of these establishments either in the Census of Manufactures or in the Census of Business.

Item 11a.-Enter here the account number as it appears on your electricity bill. If you have more than one account for this establishment, please give numbers for all accounts.

Item 11b.-(See Instructions on Form.)

Item 12.-Products Sold and Services of this Establishment During 1958.-Report separately each product made. Do not combine product lines.

Before listing each product made in this establishment, please refer to the enclosed Product Class Reference List. Examine the list and determine in which product class or classes your manufactured products belong. Note the 5-digit code number opposite each product class description. Then enter in Column (A) your own description of the products you manufacture, and in column (B), on the same line, the 5-digit product class code number that relates to that product and which appears in the Product Class Reference List.

If your products belong in more than one product class in the Product Class Reference List report each on a separate line. For example, if you manufacture bakery products, these could fall into each of the codes 20511, 20512 and 20520. If your bakery products consist of bread, pies and cookies, they should be listed on two lines, as follows:

## Code

Bread..... 20511  
Pies and Cookies..... 20512

If you cannot determine the product class code from the Product Class Reference List, describe your product in column (A) and enter Code 99990.

For each of your products, enter the information requested in column (C), (D) and (E). The unit of measure should be the most commonly used in the industry: ton, gallon, barrel, dozen, etc. The unit of measure should be specified in column (C). If no quantity unit is applicable, it may be omitted.

Total Sales and Interplant Transfers (columns (D) and (E)).-Sales should represent net selling value, f.o.b. plant, after discounts and allowances, and SHOULD NOT INCLUDE FREIGHT CHARGES OR EXCISE TAXES. Transfer of products to other plants of the same company should be included at the nearest approximation to commercial selling value, f.o.b. plant. Values in column (E) should include all sales and receipts-products sold (including interplant transfers of products made) in lines 1 to 10, contract work receipts in lines 11 to 16; miscellaneous receipts in line 17; and resales of products in the same condition as purchased in line 18. (The cost of these products should be reported in item 10b.)

Item 13.-Report the ultimate destination of goods, if known. Otherwise, report the location of the person or firm to which the products were shipped or sold. The "value of sales" total on line "d" of this item should equal the sum of the entries in lines 1 through 10 of item 12, column (E). The "contract receipts" total on line "d" of this item should equal the sum of the entries in lines 11 through 16 of item 12, column (E).

Item 14.-(See Instructions on Form.)

Item 15.-(See Instructions on Form.)

Item 16.-Inventories of this Establishment.-Report the value of all inventories wherever located, for the account of the establishment. Include goods owned by you but held by others. Do not include goods held by you but owned by others. Inventories should be reported at approximate current costs if feasible; otherwise, at book values.

Item 17.-(See Instructions on Form.)

Item 18.-(See Instructions on Form.)

## REPORT FORM PR-MC 100-S

Budget Bureau No. 41-5869; Approval Expires December 31, 1959.

DEPARTAMENTO DE COMERCIO DE LOS ESTADOS UNIDOS NEGOCIADO DEL CENSO				JUNTA DE PLANIFICACION DE PUERTO RICO NEGOCIADO DE ECONOMIA Y ESTADISTICAS				CONFIDENCIAL - Este informe deberá ser campeonado y devuelto DENTRO DE 30 DIAS A PARTIR DE LA FECHA DE RECIBO. Este informe está autorizado por una Ley del Congreso de los Estados Unidos (13 U.S.C. 131) y una Ley de la Legislatura de Puerto Rico (Núm. 11 del 27 de marzo de 1950). Ambas leyes proveen penalidades para todos aquellos dueños de negocios cubiertos por el Censo que no cumplimentan su formulario. Su informe es estrictamente confidencial y sólo empleados jaramentados del Censo tendrán acceso a él. Su informe no podrá ser usado para propósitos de impuestos, investigación o reglamentación.							
CENSO DE MANUFACTURAS-1958															
PUERTO RICO															
FORMULARIO PR - MC - 100 S								(Tengan la bondad de corregir cualquier error en el nombre y dirección)

CENSO DE MANUFACTURAS DE PUERTO RICO 1958

INSTRUCCIONES GENERALES A LOS INDUSTRIALES PARA LLENAR LOS FORMULARIOS PR-MC 100 S

INTRODUCCION

Tenga la bondad de cumplimentar este formulario y devolverlo a la Oficina del Censo en el sobre con dirección adjunto, no más tarde de 30 días después de recibido por usted. Se requiere un informe por separado para cada establecimiento manufacturero. Si usted operó más de un establecimiento manufacturero en 1958 pero ha recibido solo un formulario, anote el nombre de cada establecimiento en la sección para "Comentarios" de dicho formulario y devuélvalo en el sobre con dirección adjunto, de manera que le podamos enviar el número correspondiente de formularios para llenar.

Lea cuidadosamente todas las instrucciones y complete todos los apartados (con la excepción del Apartado 11b, si no le corresponde). Anote "Nada" o "0" (cero) donde sea aplicable y si es necesario, explique en el apartado para "Comentarios".

Este informe debe cubrir el año calendario 1958. Si su sistema de contabilidad no se ajusta al año calendario, se aceptarán estimados que sean cuidadosamente preparados para el año 1958. Si la preparación de estos estimados envuelve una gran cantidad de labor y costo, se aceptarán las cifras para su año económico si por lo menos nueve meses del 1958 están incluidos. Sin embargo, todas las cifras de empleo (Apartado 7), horas tra-

APARTADOS EN

**Apartado 1.-Nombre del Establecimiento (Fábrica, Planta o Molino).** Anote el nombre bajo el cual hace negocios el establecimiento cubierto por este informe. Si este es uno de varios establecimientos que operan bajo la misma firma, indique también el nombre o número que lo distingue de las otras factorías, plantas, etc., de la misma compañía. Por ejemplo: Compañía Azucarera Occidental-Central Susúa.

**Apartado 2.-**(Vea las instrucciones en el formulario.)

**Apartado 3.-**(Vea las instrucciones en el formulario.)

**Apartado 4.-Afilación de la Compañía.**Un informe separado deberá ser cumplimentado para cada establecimiento indicado en la parte (c) de este apartado.

**Apartado 5.-**(Vea las instrucciones en el formulario.)

**Apartado 6b.-**Si marca el encasillado (4) indique en la sección de "Comentarios" la disposición de la planta-desocupada, demolida, desmantelada, etc.

**Apartado 7.-Número de Empleados en 1958.**Informe el número de empleados en este establecimiento que trabajaron o recibieron paga durante cualquier parte del período de pago (preferiblemente una semana) que termine lo más cerca del día 15 de cada uno de los meses especificados en el formulario. Incluya todas las personas que estaban en vacación anual, en vacación por enfermedad o cualquier otra vacación pagada. Si el número de empleados en alguno de estos períodos fué anormalmente bajo por razones de huelga, falta de materiales, etc., indique la razón en la sección para "Comentarios".

**Apartado 8.-Horas Trabajadas por los Obreros de Producción y Relacionados Por Trimestres.**Si usted paga empleados a base de trabajo realizado (por tareas), se aceptará un estimado razonable del número de horas trabajadas por todos los obreros de producción y relacionados durante cada trimestre.

**Apartado 9.-Nómina Total en 1958.**Informe el total de pagos hechos durante el año 1958 a los empleados en las nóminas de este establecimiento incluyendo comisiones, bonificaciones, vacaciones pagadas, pagos por separación del trabajo y cualesquiera otras compensaciones en especie y antes de hacer deducciones tales como Seguro Social, Cruz Azul, Cuotas de Unión y bonos de los Estados Unidos. (Puede usar la definición de sueldos y jornales que se usa para calcular las deducciones para Seguro Social Federal.)

**Apartado 10.-Algunos Costos Específicos de Manufactura.-"Costos"** se refiere a cargos efectivamente pagados o pagaderos después de hechos los descuentos, pero incluyendo costos de transportación y otros costos directos incurridos al adquirir los materiales y efectos. El costo de los materiales, efectos, etc., adquiridos por transferencia de otras plantas de la misma compañía, deberá calcularse lo más aproximadamente posible al valor en el mercado.

**Apartado 10a.-**Incluya el costo de materiales, efectos, etc., adquiridos antes de 1958 pero usados durante este año. No incluya materiales comprados en 1958 que no fueron usados. Si su contabilidad no provee la información de costos de materiales consumidos pero sus compras se aproximan al consumo, puede informar las cifras según las compras.

Informe el costo total (entregado en la planta) de todas las materias primas, artículos semi-elaborados, piezas, componentes, envases, efectos, etc., consumidos o incorporados en la producción durante el 1958 por este establecimiento. Incluya el costo de materiales y efectos usados en el mantenimiento y reparación de su planta y equipo.

**Apartado 10b.-**Informe el costo de todos los productos o artículos comprados y revendidos en la misma condición en que se adquirieron y sin formar parte de otro producto o artículo fabricado en este establecimiento.

**Apartado 10c.-**Informe el costo de la energía eléctrica comprada durante el año 1958.

**Apartado 10d.-**Informe el total efectivamente pagado o pagadero durante el 1958 por combustibles y fuerza. Incluya el costo de gasolina usada por vehículos de motor. No incluya combustibles que son usados como materia prima. No incluya el costo de energía eléctrica comprada ni la producida en el establecimiento como tampoco el valor de combustibles producidos por su establecimiento, como por ejemplo, el bagazo en la industria de azúcar.

**Apartado 10e.-**Si alguna labor fué hecha por otros en materiales suministrados por su establecimiento, informe el total pagado en 1958 por esa labor incluyendo gastos de flete de ida y vuelta. Excluya el costo de los materiales trabajados el cual deberá informarse en el Apartado 10a.

bajadas (Apartado 8), y nómina (Apartado 9) deberán corresponder al año calendario 1958.

Las fechas anotadas en la "Certificación" (Apartado 20), deben indicar el período exacto para el cual se preparó este informe. De manera que si el establecimiento empezó a operar o dejó de operar durante el 1958, estas fechas deberán cubrir la parte del año para el cual se informa. Debe informar únicamente para la parte del año 1958 en que usted operó el establecimiento.

Cada informe debe cubrir las actividades de producción (manufactura, fabricación, elaboración, montaje) que se lleven a cabo en el establecimiento y también las actividades de mantenimiento de planta y equipo, recibimiento, embarque, almacenaje, investigación, contabilidad, salud, seguridad, cafetería, y otros servicios cuando son llevados a cabo en el mismo local por el establecimiento manufacturero.

Cuando se operen como establecimientos separados, el informe debe excluir las sucursales y oficinas de ventas, plantas de energía, negocios al detal y oficinas administrativas generales. Tales establecimientos informarán para el "Censo de Negocios".

EL FORMULARIO

**Apartado 11a.-**Anote el número de cuenta como aparece en su recibo de consumo de electricidad. Si mantiene más de una cuenta para este establecimiento, haga el favor de anotar el número de cada una de las cuentas.

**Apartado 11b.-**(Vea las instrucciones en el formulario.)

**Apartado 12.-Ingresos por Productos Vendidos, etc.**Informe separadamente en las líneas 1-10, ú 11-16, cada producto o artículo hecho. No combine artículos de líneas de productos.

Antes de anotar cada producto manufacturado en este establecimiento, haga el favor de referirse a la Lista de Referencia de Clases de Productos que se incluye con este informe. Examine la lista y determine que clase (s) de producto (s) pertenece el producto (s) manufacturado por usted. Examine el número de clave de 5 dígitos que aparece a la izquierda del renglón que describe el producto (s) que usted manufactura. Anote en la columna (A) una descripción del producto (s) que usted manufactura, y en la columna (B), en la misma línea, el número de clave de 5 dígitos del renglón en la Lista de Referencia de Clases de Productos que describe el producto (s) que usted manufactura.

Si sus productos se encuentran en más de una clase de producto en la Lista de Referencia, informe cada producto separadamente en las líneas correspondientes. Por ejemplo, si usted manufactura productos de panadería y repostería, estos podrían caer en cualquiera de los números de clave 20511, 20512 y 20520. Si sus productos de panadería y repostería consisten de "pie" y galletitas, deberían ser listados en 2 líneas, como sigue:

	Clave
Pan .....	20511
"Pie" y galletitas ..	20512

Si usted no puede determinar la clave de la clase de producto de la Lista de Referencias de Clases de Producto, describa su producto en la columna (A) y anote el número de clave 99990 en la columna (B).

Anote la información requerida en las columnas (C), (D), y (E) para cada uno de los productos descritos en la columna (A). La unidad de medida deberá ser la que más comúnmente se use en la industria, por ejemplo: tonelada, galón, barril, docena, etc., y deberá ser anotada en la columna (C). Se podrá omitir si no se usa una unidad de medida uniforme para el producto.

Columnas (D) y (E).-Total de Ventas y Transferencias Entre Plantas.-Las ventas totales deben representar el valor neto f.o.b. planta, después de los descuentos y concesiones, y NO DEBEN INCLUIR CARGOS DE FLETE NI LOS ARBITRIOS. Las transferencias de productos o artículos manufacturados a otras plantas de la misma compañía deben incluirse indicando su valor más aproximado de venta f.o.b. planta. Los valores en la columna (E) deben incluir todas las ventas e ingresos-productos vendidos (incluyendo transferencias de productos hechos entre plantas) en las líneas 1-10; ingresos por labor realizada por contrato en las líneas 11-16; Ingresos misceláneos en la línea 17; y reventa de productos en la misma condición en que se adquirieron en la línea 18. (El costo de estos productos debe informarse en el Apartado 10b)

**Apartado 13.-**El lugar al que fueron hechas las ventas debe ser el último lugar de destino, pero si no lo sabe, informe con respecto al lugar inmediato a que se enviaron o vendieron los productos. El total del "valor de las ventas" en la línea "d" de este apartado debe ser igual a la suma de las cifras de las líneas 1 a 10 del Apartado 12, columna (E). El total de los "ingresos por labor contratada" en la línea "d" de este apartado debe ser igual a la suma de las cifras en las líneas 11 a 16 del Apartado 12, columna (E).

**Apartado 14.-**(Vea las instrucciones en el formulario.)

**Apartado 15.-**(Vea las instrucciones en el formulario.)

**Apartado 16.-Inventarios en Este Establecimiento.**Informe el valor de todos los inventarios almacenados por cuenta de este establecimiento no importa donde estén localizados. Incluya materiales, artículos, efectos, etc., pertenecientes al establecimiento pero en manos de otros. No incluya los bienes en su poder pero que pertenezcan a otros. Los inventarios deben valorizarse aproximadamente a precios corrientes del mercado si posible; si no, al valor en los libros.

**Apartado 17.-**(Vea las instrucciones en el formulario.)

**Apartado 18.-**(Vea las instrucciones en el formulario.)

## REPORT FORM PR-MC 101-S

Budget Bureau No. 41-5870; Approval Expires December 31, 1959

DEPARTAMENTO DE COMERCIO DE LOS ESTADOS UNIDOS NEGOCIADO DEL CENSO		JUNTA DE PLANIFICACION DE PUERTO RICO NEGOCIADO DE ECONOMIA Y ESTADISTICAS		CONFIDENCIAL--Este informe está autorizado por una Ley del Congreso de los Estados Unidos (18 U.S.C. 131) y una Ley de la Legislatura de Puerto Rico (Núm. 11 del 27 de marzo de 1950). Ambas leyes proveen penalidades para todos aquellos dueños de negocios cubiertos por el Censo que no cumplimenten un formulario. Su informe es estrictamente confidencial y sólo empleados juramentados del Censo tendrán acceso a él. Su informe no podrá ser usado para propósitos de imputación, investigación o reglamentación.  (Tenga la bondad de corregir cualquier error en el nombre y dirección)

## INSTRUCTION FOR PREPARING FORM

## INSTRUCCIONES GENERALES A LOS INDUSTRIALES PARA LLENAR LOS FORMULARIOS PR-MC-101 S

NOTA: NO DEVUELVA ESTE FORMULARIO.  
Llénelo y reténgalo en su oficina y entréguelo  
a un enumerador del Censo que lo visitará oportu-  
namente.

## INTRODUCCION

Se requiere un informe por separado para cada establecimiento manufacturero. Si usted operó más de un establecimiento manufacturero en 1958 pero ha recibido sólo un formulario, anote el nombre de cada establecimiento en la sección para "Comentarios" de dicho formulario y devuélvalo en el sobre con dirección adjunta, de manera que le podamos enviar el número correspondiente de formularios para llenar.

Les recomendamos todas las instrucciones y complete todos los apartados. Anote "Nada" o "0" (cero) donde sea aplicable y si necesario, explique en el apartado para "Comentarios".

Este informe debe cubrir el año calendario 1958. Si su sistema de contabilidad no

se ajusta al año calendario, se aceptarán estimados que sean cuidadosamente preparados para el año 1958. Si la preparación de estos estimados envuelve una gran cantidad de labor y costo, se aceptarán las cifras para su año económico si por lo menos seis meses del 1958 están incluidos. Sin embargo, todas las cifras de empleo (Apartado 6) y nómina (Apartado 8), deberán corresponder al año calendario 1958.

Las fechas anotadas en la "Certificación" (Apartado 14) deben indicar el período exacto para el cual se preparó este informe. De manera que si el establecimiento empezó a operar o dejó de operar durante el 1958, estas fechas deberán cubrir la parte del año para el cual se informa. Debe informar únicamente para la parte del año 1958 en que usted operó el establecimiento.

## APARTADOS EN EL FORMULARIO

Apartado 1.—Nombre del Establecimiento.—Anote el nombre bajo el cual hace negocios el establecimiento cubierto por este informe.

Apartado 2.—(Vea las instrucciones en el formulario.)

Apartado 3.—(Vea las instrucciones en el formulario.)

Apartado 4.—(Vea las instrucciones en el formulario.)

Apartado 5.—Cambio de Estado o Posesión.—Si marca el encasillado (4) indique en la sección para "Comentarios" la disposición de la planta—desocupada, demolida, desmantelada, etc.

Apartado 6.—Número de Empleados en 1958.—Informe el número de empleados en este establecimiento que trabajaron o recibieron pago durante cualquier parte del período de pago (preferiblemente una semana) que terminó más cerca del día 15 de la mesada especificados en el formulario. Incluya todas las personas que estaban en vacaciones suales, en vacaciones por enfermedad o cualquier otra vacación pagada. Si el número de empleados en algunos de estos períodos fue anormalmente bajo por razones de huelga, falta de materiales, etc., indique la razón en la sección para "Comentarios".

Apartado 7.—Algunos Costos Específicos de Manufactura.—"Costo" se refiere a cargas efectivamente pagadas o pagaderas después de hechas las descuentos, pero incluyendo costos de transportación y otros costos directos incurridos al adquirir los materiales y efectuar. Incluya el costo de materiales, efectos, etc., adquiridos antes de 1958 pero usados durante ese año. No incluya materiales comprados en 1958 que no fueron usados. Si su contabilidad no provee la información de costo de materiales consumidos pero sus compras se aproximan al consumo, puede informar las cifras según las compras.

Apartado 8.—Nómina Total en 1958.—Informe el total de pagos hechos durante el año 1958 a los empleados en las nóminas de este establecimiento incluyendo comisiones, bonificaciones, vacaciones pagadas, pagos por separación del trabajo, y cualesquiera otras compensaciones en especie y antes de hacer deducciones tales como Seguro Social, Cruz Azul, Cuentas de Unión y Bonos de los Estados Unidos. (Puede usar la definición de sueldos y jornales que se usa para calcular las deducciones para Seguro Social Federal.)

Apartado 9.—Ingresos por Productos Vendidos, etc.—Antes de anotar cada producto manufacturado en este establecimiento, haga el favor de referirse a la Lista de Referencia de Clases de Productos que se incluye con este informe. Examine la lista y determine a qué clase (a) de producto (a) pertenece el producto (s) manufacturado por usted. Examine el número de clave de 5 dígitos que aparece a la izquierda del renglón que describe el producto (a) que usted manufactura. Anote en la columna (A) una descripción del producto (s) que usted manufactura, y en la columna (B), en la misma línea, el número de clave de 5 dígitos del renglón en la Lista de Referencia de Clases de Productos que describe el producto (s) que usted manufactura.

Si sus productos se encuentran en más de una clase de producto en la Lista de Referencia, informe cada producto separadamente en las líneas correspondientes. Por ejemplo, si usted manufactura productos de panadería y repostería, éstos podrían caer en cualquiera de los números clave 20511, 20512 y 20520. Si sus productos de panadería y repostería consisten de pan, "pie" y galletitas, deberán ser listados en 2 líneas, como sigue:

	<u>Clave</u>
Pan,-----	20511
"Pie" y galletitas-----	20512

Si usted no puede determinar la clave de la clase de producto de la Lista de Referencia de Clases de Productos, describa su producto en la columna (A) y anote el número de clave 99990 en la columna (B).

Anote la información requerida en las columnas (C), (D), y (E) para cada uno de los productos descritos en la columna (A). La unidad de medida deberá ser la que más comúnmente se usa en la industria, por ejemplo: tonelada, galón, barril, docena, etc., y deberá ser anotada en la columna (C). Se podrá omitir si no se usa una unidad de medida uniforme para el producto.

Apartado 10.—(Vea las instrucciones en el formulario.)

Apartado 11.—(Vea las instrucciones en el formulario.)

Apartado 12.—(Vea las instrucciones en el formulario.)

Apartado 14.—(Vea las instrucciones en el formulario.)

1958 PUERTO RICO CENSUS OF MANUFACTURES  
APPENDIX C  
LISTA DE LAS INDUSTRIAS QUE APARECEN  
EN LAS TABLAS

Clave de Industria	Industrias y Grupos de Industrias	Clave de Industria	Industrias y Grupos de Industrias	Clave de Industria	Industrias y Grupos de Industrias

331	Hornos y fundiciones de acero	3589	Máquinas de servicio y para el hogar, n.c.a.	3954	Materiales para artistas
3311	Hornos de fundición			396	Prendas de fantasía, botones y artículos misceláneos
3312	Fábricas de acero y talleres de laminación	359	Piezas misceláneas para máquinas	3961	Prendas de fantasía
332	Fundiciones de hierro y acero	3591	Válvulas y ajustes, excepto de plomería	3962	Flores artificiales
3321	Fundiciones de hierro gris	3593	Cojinetes de bola y de rodillos	3963	Botones
3322	Fundiciones de hierro maleable	3599	Talleres de reparación mecánica	3964	Agujas, alfileres, broches y cierres de cremallera
3341	Fundición y refinamiento secundario de metales no ferrosos y aleaciones	36	Maquinaria eléctrica	3971	Productos plásticos, n.c.a.
335	Laminado, extracción y afluatación de metales no ferrosos	361	Aparatos transmisores, generadores y distribuidores eléctricos para fines industriales	398-399	Manufacturas misceláneas
3352	Laminado, extracción y afluatación de aluminio	3611	Equipo y efectos para instalaciones eléctricas	3981	Escobas, cepillos y brochas
3359	Laminado, extracción y afluatación de metales no ferrosos, n.c.a.	3613	Instrumentos para indicar, medir y grabar cantidades y características eléctricas	3984	Velas
3361	Fundiciones de metales no ferrosos	3614	Motores y generadores	3985	Fuegos artificiales y pirotécnia
339	Industrias de metales primarios misceláneos	3616	Conmutadores, cuadros de distribución y controles eléctricos	3986	Estuches de joyería e instrumentos
3392	Extracción de alambre y sus productos	3617	Máquinas de soldar eléctricas	3987	Pantallas para lámparas
		3619	Equipo industrial eléctrico, n.c.a.	3988	Efectos fúnebres
		3621	Aparatos eléctricos	3993	Letreros y anuncios comerciales (no impresos)
		3641	Equipo eléctrico para maquinaria	3994	Productos de pelo
				3995	Paraguas, sombrillas y bastones
				3996	Pipas de fumar
				3999	Productos misceláneos, n.c.a.

LISTA DE LAS INDUSTRIAS QUE APARECEN  
EN LAS TABLAS

Clave de Industria	Industrias y Grupos de Industrias	Clave de Industria	Industrias y Grupos de Industrias	Clave de Industria	Industrias y Grupos de Industrias
	Todas las industrias, total (Clasificación Industrial Uniforme, Edición de 1957)	228	Fábricas de hilo e hilazas	2521	Muebles de madera para oficinas
20	Alimentos y productos análogos	2281	Fábricas de hilaza (algodón, seda y fibras sintéticas)	2531	Muebles para edificios públicos y similares
201	Preparaciones de carne	2283	Fábricas de hilaza en lana, incluyendo hilaza para tapices y alfombras	2541	Muebles fijos para oficinas y tiendas en madera
2013	Embutidos y otras preparaciones de carne	2284	Fábricas de hilo	259	Muebles y enseres misceláneos
2015	Preparación y empaque de aves y caza menor al por mayor	2294	Transformación de desechos y fibras recuperadas	2591	Persianas venecianas y cortinas
		23	Ropa y productos análogos	2599	Muebles y enseres, n.c.a.
202	Productos de lechería	2311	Trajes completos, chaquetas y abrigos masculinos	26	Papel y productos análogos
2022	Queso natural			2631	Fábricas de cartón
2024	Mantecados y postres congelados	232	Artículos de vestir para hombres y niños	264	Productos de papel y cartón, excepto envases y cajas
2025	Productos especiales de lechería	2321	Camisas (excepto de trabajo) y ropa de dormir masculina	2642	Sobres
2026	Pasteurización, homogenización y embotellado de leche líquida	2322	Ropa interior masculina	2643	Sacos, excepto de tela
		2323	Corbatas, bufandas y accesorios análogos	2645	Corte de papel y cartón; y cartulina
203	Enlatado, conservación y congelación	2327	Pantalones (excepto de trabajo)	265	Envases y cajas de cartón
2031	Mariscos enlatados y curados	2328	Ropa de trabajo	2651	Cajas de cartón dobladas
2033	Enlatado y conservación (excepto mariscos)	2329	Ropa masculina, n.c.a.	2652	Cajas de cartón armadas
2035	Frutas y vegetales en salmuera			2653	Cajas de cartón corrugado y de fibra sólida
2037	Congelación de frutas, jugos de frutas y vegetales	233	Ropa exterior para señoras, señoritas y adolescentes		
204	Productos de molino de granos	2331	Blusas, corpiños y camisas	27	Industrias gráficas y análogas
2041	Harinas y otros productos de molino	2335	Trajes	2711	Periódicos (diarios)
2042	Alimentos para animales	2337	Trajes sastre, faldas y abrigos (excepto abrigos de pieles y capas de lluvia)	2721	Revistas
		2339	Ropa exterior femenina, n.c.a.	2731	Libros
205	Productos de panadería y repostería			275	Impresos comerciales
2051	Pan y otros productos de harina	234	Ropa interior para señoras y niños	2751	Impresos comerciales (excepto litográficos)
2052	Galletas y rosquillas (pretzels)	2341	Ropa interior y de dormir para señoras y niños	2752	Impresos comerciales (litográficos)
206	Azúcar	2342	Corses y artículos análogos	2753	Grabados e impresos sobre planchas
2061	Azúcar crudo			2761	Formas comerciales múltiples
2062	Refinado de azúcar	235	Sombreros, gorras y accesorios para sombreros	2771	Tarjetas de felicitación
207	Confites y productos análogos	2351	Sombreros para señoras, señoritas, niños e infantes	2789	Encuadernación y trabajo análogo
2071	Bombones y confites			279	Servicios para las imprentas
2072	Chocolate y productos de cocoa	2352	Sombreros y gorras para hombres y niños	2791	Composición de tipos
2073	Goma de mascar			2793	Fotografado
208	Bebidas	236	Ropa exterior para niños y niñas	28	Productos químicos y análogos
2082	Cerveza y otros licores de malta	2361	Trajes, blusas, corpiños y camisas para niños, niñas e infantes	281	Productos químicos orgánicos e inorgánicos para fines industriales
2084	Vinos y brandy			2813	Gases industriales
2085	Licores destilados, rectificados y mezclados (excepto brandy)	2363	Abrigos y trajes completos	2819	Productos químicos inorgánicos para fines industriales, n.c.a.
2086	Gaseosas y aguas carbonatadas	2369	Ropa exterior infantil, n.c.a.		
2087	Extractos y siropes para dar sabor	238	Artículos y accesorios misceláneos de vestir	282	Materiales plásticos y resinas sintéticas, goma sintética, fibras sintéticas, excepto cristal
209	Preparaciones alimenticias misceláneas	2381	Guantes de vestir y de trabajo (excepto tejidos o todos de piel)	2821	Materiales plásticos y resina sintética
2097	Hielo	2387	Cinturones	2824	Fibras orgánicas sintéticas, (excepto celulósicas)
2099	Alimentos, n.c.a.	2389	Ropa, n.c.a.	283	Drogas
21	Productos de tabaco	239	Productos textiles misceláneos	2833	Productos químicos medicinales y botánicos
2121	Cigarros	2392	Artículos para el hogar, n.c.a.	2834	Preparaciones farmacéuticas
2131	Tabaco para mascar y fumar	2394	Artículos de lona	284	Jabón, detergentes, preparaciones para limpiar, perfumes, cosméticos y otras preparaciones de tocador
2141	Despallillado y secado de tabaco	2395	Plisado, pespunteado y alforzado para el comercio	2841	Jabón y otros detergentes (excepto limpiadores especiales)
22	Productos textiles	2396	Adornos para ropa y productos análogos	2842	Preparaciones especiales para limpiar, pulir y sanear, excepto jabón y detergentes
2211	Géneros de algodón de doce pulgadas o más de ancho	2399	Productos textiles, n.c.a.	2844	Perfumes, cosméticos y otras preparaciones de tocador
2221	Géneros de seda y fibras sintéticas de doce pulgadas o más de ancho	24	Madera y sus productos (excepto muebles)	2851	Pinturas y barnices
2241	Géneros de menos de doce pulgadas de ancho de algodón, lana, seda y fibras sintéticas	2421	Aserraderos y cepilladeros, general	287	Productos químicos para la agricultura
225	Fábricas de géneros de punto	2431	Puertas, ventanas y persianas	2871	Abonos
2251	Medias	249	Productos de madera misceláneos	2872	Abonos, mezcla solamente
2252	Medias sin costura	2491	Preservación de madera	2873	Pesticidas agrícolas
2253	Ropa exterior de punto	2499	Otros productos de madera, n.c.a.	2899	Productos químicos y preparaciones, n.c.a.
2256	Géneros de punto				
2259	Géneros de punto, n.c.a.	25	Muebles y enseres		
2261	Acabado de géneros de algodón de doce pulgadas o más de ancho	251	Muebles para el hogar		
227	Tapices, alfombras y productos análogos	2511	Muebles de madera (excepto los tapizados)		
2271	Tapices y alfombras	2512	Muebles para el hogar, tapizados		
2279	Tapices y alfombras, n.c.a.	2514	Muebles de metal		
		2515	Colchones y alambres para camas		
		2519	Muebles para el hogar, n.c.a.		

Clave de Industria	Industrias y Grupos de Industrias	Clave de Industria	Industrias y Grupos de Industrias	Clave de Industria	Industrias y Grupos de Industrias
29	Refinado de petróleo e industrias análogas	3352	Laminado y extracción de aluminio	3621	Motores y generadores
2911	Refinado de petróleo	3357	Extracción y aislación de alambre no ferroso	3623	Aparatos eléctricos para soldar
295	Materiales para pavimentar y techar	336	Fundiciones de metales no ferrosos	363	Enseres eléctricos para el hogar
2951	Mezclas y bloques para pavimentación	3361	Fundiciones de aluminio	3634	Equipo eléctrico para usos domésticos y abanicos
2952	Filtros de asfalto para techar	3369	Fundiciones de metales no ferrosos, n.c.a.	3639	Enseres eléctricos para el hogar, n.c.a.
30	Productos de goma y productos plásticos misceláneos	34	Productos de metal	364	Alumbrado eléctrico y equipo para instalaciones eléctricas
3021	Calzado de goma	3411	Envases de metal (latas)	3641	Lámparas eléctricas
3069	Productos de goma, n.c.a.	342	Cubiertos, herramientas de mano y ferretería	3643	Equipo para instalaciones eléctricas
3079	Productos plásticos misceláneos	3421	Cubiertos, cuchillos y otros instrumentos cortantes	365	Equipo receptor de radio y televisión (excepto de comunicación)
31	Cuero y artículos de cuero	3425	Sierras de mano y hojas de sierras	3651	Equipo receptor de radio y televisión, excepto de comunicación)
3111	Tenerías	3429	Ferretería, n.c.a.	3652	Discos fonográficos
3131	Materiales para la fabricación de zapatos y botas	3433	Equipo para calentar, excepto eléctrico	366	Equipo de comunicación
314	Calzado (excepto de goma)	344	Productos de metal para construcciones	3661	Equipo de teléfono y telégrafo
3141	Calzado (excepto chinelas y calzado de goma)	3441	Acero para construcciones	3662	Equipo transmisor y de señales de radio y televisión
3142	Chinelas	3442	Puertas, bastidores y guarniciones de metal	367	Componentes y accesorios electrónicos
3151	Gautes de vestir y de trabajo hechos de cuero	3443	Trabajos en láminas de metal (palería)	3672	Tubos receptores de rayos catódicos para televisión
3161	Maletas, baúles y artículos análogos	3444	Artículos hechos de planchas de metal	3679	Componentes y accesorios electrónicos, n.c.a.
317	Carteras y otros artículos personales de cuero	3449	Trabajos arquitectónicos y misceláneos en metal	369	Maquinaria, equipo y accesorios eléctricos misceláneos
3171	Carteras y bolsos de mujer	345	Piezas para máquinas de rosca y pestillos, tuercas, zapatillas y remaches	3691	Acumuladores
3172	Artículos personales de cuero (excepto carteras y bolsos)	3451	Piezas para máquinas de rosca	3694	Equipo eléctrico para máquinas de combustión interna
3199	Artículos de cuero, n.c.a.	3452	Pestillos, tuercas, tornillos, remaches, zapatillas y arandelas	3699	Maquinaria, equipo y accesorios eléctricos, n.c.a.
32	Productos de piedra, barro y cristal	3461	Estampado en metal	37	Equipo de transporte
3221	Envases de cristal	347	Enchapado y grabado de metales y servicios análogos	3713	Cajas de camiones y guaguas
3231	Artículos de cristal comprado	3471	Enchapado y pulido de metales	3732	Construcción y reparación de botes y barcos
3241	Cemento Portland	3479	Enchapado y grabado de metales y servicios análogos, n.c.a.	3799	Equipo de transporte, n.c.a.
325	Materiales de construcción hechos de barro	3481	Productos misceláneos de alambre	38	Instrumentos profesionales, científicos y fotográficos
3253	Losetas de cerámica para pisos y paredes	349	Productos misceláneos de metal	3811	Instrumentos de ingeniería, laboratorios y científicos
3259	Materiales de construcción hechos de barro, n.c.a.	3493	Muelles de acero	3821	Instrumentos mecánicos para medir y controlar
326	Alfarería y productos análogos	3494	Válvulas y ajustes de tubería (excepto artículos de plomería en bronce)	384	Instrumentos de abastecimientos médicos y quirúrgicos
3262	Utensilios de loza vidriosa	3499	Artículos de metal, n.c.a.	3841	Instrumentos médicos y quirúrgicos
3263	Artículos de loza fina (vajillas y utensilios de cocina)	35	Maquinaria (excepto eléctrica)	3842	Aparatos y equipo quirúrgicos y ortopédicos
3264	Accesorios eléctricos de porcelana	354	Maquinaria y equipo para trabajo en metal	3843	Equipo y efectos dentales
3269	Productos de alfarería, n.c.a.	3541	Herramientas para maquinaria para corte de metales	3851	Efectos oftálmicos
327	Cal y productos de concreto	3544	Cuños y herramientas especiales	3861	Equipo y efectos fotográficos
3271	Bloques y ladrillos de concreto	3545	Piezas para maquinaria y herramientas de precisión	39	Industrias manufactureras misceláneas
3272	Productos de concreto (excepto bloques y ladrillos)	3548	Máquinaria para trabajos en metal (excepto herramientas de máquinas)	391	Joyería y piezas de plata
3273	Concreto pre-mezclado	355	Maquinaria para industrias especiales, n.c.a.	3911	Joyería, metales preciosos
3274	Cal	3551	Maquinaria de productos alimenticios	3912	Abastecimientos y materiales para joyeros
3275	Productos de yeso	3553	Maquinaria para ebanistería	3913	Trabajo lapidario y corte y pulimiento de diamantes
3281	Piedra tallada y artículos de piedra	3554	Maquinaria para la industria de papel	3914	Cubiertos de plata y enchapados
329	Productos minerales no metálicos misceláneos	356	Maquinaria y equipo industrial general	394	Juguetes y artículos deportivos
3291	Productos abrasivos	3561	Bombas, compresores de aire y gas y equipo de bombear	3941	Juegos y juguetes (excepto muñecas y vehículos de niños)
3292	Productos de asbestos	3562	Cojinetes de bola y de rodillos	3942	Muñecas (incluyendo trajes de muñecas)
3295	Minerales: pulidos o tratados	358	Maquinaria de servicio	3949	Efectos deportivos y atléticos, n.c.a.
3299	Productos minerales no metálicos, n.c.a.	3585	Maquinaria de refrigeración (excepto para el hogar)	395	Plumas, lápices y otros materiales para oficina
33	Industrias de metales primarios	3589	Máquinas de servicio, n.c.a.	3951	Plumas y lápices mecánicos
331	Hornos y fundiciones de acero	359	Maquinaria miscelánea (excepto eléctrica)	3953	Sellos de mano y estarcidos
3312	Altos hornos y fábricas de acero y talleres de laminación	3591	Talleres de reparación mecánica	396	Prendas de fantasía, botones y artículos misceláneos
3315	Productos de alambre de acero (clavos y ganchos)	3599	Maquinaria y piezas (excepto eléctrica), n.c.a.	3961	Prendas de fantasía
3322	Fundiciones de hierro maleable	36	Maquinaria, equipo y piezas eléctricas	3962	Plumas de aves, plumajes y flores artificiales
3341	Fundición, refinamiento y afluatación secundaria de metales no ferrosos	361	Equipo de transmisión y distribución eléctricos	3963	Botones
335	Laminado y extracción de metales no ferrosos	3611	Instrumentos y equipo para medir e indicar cantidades eléctricas	3964	Agujas, alfileres, broches y cierres de cremallera
		3613	Conmutadores y cuadros de distribución eléctricos	3988	Efectos fúnebres
		362	Aparatos eléctricos industriales	398-399	Manufacturas misceláneas
				3981	Escobas, cepillos y brochas
				3993	Letreros y anuncios comerciales (no impresos)
				3995	Paraguas, sombrillas y bastones
				3999	Industrias manufactureras, n.c.a.
